Index of Authors

Note. Entries marked with an asterisk (*) refer to communications made in title only.
Entries marked with a section mark (§) refer to contributions to Symposia.
Small roman numerals refer to pages in *Proceedings of the Biochemical Society.*

AGARWAL, C. V. *see* PATHAK, S. P. 264

ALDRIDGE, W. N. & DAVISON, A. N. The inhibition of erythrocyte cholinesterase by tri-esters of phosphoric acid. 1. Diethyl *p*-nitrophenyl phosphate (E 600) and analogues 62

AMINOFF, D., MORGAN, W. T. J. & WATKINS, W. M. Studies in immunochemistry. 11. The action of dilute alkali on the *N*-acetylhexosamines and the specific blood-group mucoids 379

BACON, J. S. D. & LOXLEY, R. Seasonal changes in the carbohydrates of the Jerusalem artichoke tuber 208

BAILEY, J. M., PEAT, S. & WHELAN, W. J. The minimum chain length for *Q*-enzyme action xxxiv

BAILEY, J. M. & WHELAN, W. J. Action pattern of potato phosphorylase xxxiii

BALDWIN, E. *see* MOYLE, V. 504

*BARON, D. N. A micro-electrophoresis apparatus xii

BARRETT, J. *see* BERRIDGE, N. J. iii

BERRIDGE, N. J. & BARRETT, J. An inhibitory substance in the gut of chickens iii

BHATIA, D. S. *see* PROCTOR, B. E. 535

BIRKINSHAW, J. H. Studies in the biochemistry of micro-organisms. 88. Palitantin. Part 2. Further derivatives and degradation products 271

BLAND, M. N., CONSTABLE, B. J., HARRIS, L. J. & HUGHES, R. E. Increase in liver weight and some other metabolic effects produced by administration of ACTH to young guinea pigs. 1. xxxv

BLAND, M. N. *see also* HUGHES, R. E. xxxv

BONE, A. D. *see* WEIL-MALHERBE, H. 311

BORNSTEIN, J. *see* SMITH, M. J. H. 18

BOSCOTT, R. J. Paper chromatography of urinary phenolic acids, polyphenols and oestrogens xlv

BOWNESS, J. M. & MORTON, R. A. Distribution of copper and zinc in the eyes of fresh-water fishes and frogs. Occurrence of metals in melanin fractions from eye tissues 530

BOWNESS, J. M., MORTON, R. A., SHAKIR, M. H. & STUBBS, A. L. Distribution of copper and zinc in mammalian eyes. Occurrence of metals in melanin fractions from eye tissues 521

BRAITHWAITE, F. *see* LATNER, A. L. x

BRAY, H. G., CLOWES, R. C. & THORPE, W. V. The metabolism of aminophenols, *o*-formamidophenol, benzoxazole, 2-methyl- and 2-phenyl-benzoxazoles and benzoxazolone in the rabbit 70

BRAY, H. G., THORPE, W. V. & VALLANCE, D. K. The liberation of chloride ions from organic chloro compounds by tissue extracts 193

BRIDGWATER, R. J. & HASLEWOOD, G. A. D. Partial synthesis of an acid containing the entire carbon skeleton of a natural C_{27} bile acid xxiv

BRIMLEY, R. C. *see* PARTRIDGE, S. M. 628

BROOKS, R. V., KLYNE, W., MILLER, E. & PATERSON, J. Y. F. Steroids of pregnant mares' urine. 4. Fractionation of the neutral steroids. Examination of some non-ketonic fractions 694

BROOKSBANK, B. W. L. & HASLEWOOD, G. A. D. The isolation of androst-16-en-3α-ol from women's urine 286

BROWN, D. H., DODGSON, K. S., SHERWOOD, T. J. & SPENCER, B. Serial production of glass homogenizers xlvii

BROWN, F. The estimation of vitamin E. 1. Separation of tocopherol mixtures occurring in natural products by paper chromatography 237

BROWN, G. L. A solubility analysis of crystalline ox-liver catalase 569

BUDDLE, H. L. *see* MCILWAIN, H. xxviii

BU'LOCK, J. D. *see* HARLEY-MASON, J. 430

BURRIS, R. H. & WILSON, P. W. Effect of haemoglobin and other nitrogenous compounds on the respiration of the Rhizobia 90

*BUSH, I. E. Some improvements and precautions in methods for the paper chromatography of steroids xxviii

CALDWELL, P. C. & HARRIS, E. J. Metabolic control by intracellular pH xli

CALLOW, R. K. & WORK, T. S. Antibiotic peptides from *Bacillus licheniformis*. Licheniformins A, B and C 558

CECIL, R. & OGSTON, A. G. Sedimentation and diffusion *Addendum to* The crystallization of fumarase (Massey, V.) 494

CHANDA, R., MCNAUGHT, M. L. & OWEN, E. C. The effect of thyroxine and thiouracil on the composition of milk. 3. The concentration of the major constituents and of some of the water-soluble vitamins in cow's milk 543

CHANDA, R. & OWEN, E. C. β-Carotene in goat liver and colostrum iv

CHANDA, R. & OWEN, E. C. Cocarboxylase and protein-bound aneurin in relation to phosphatase in colostrum and milk of cows xix

CHANDA, R. & OWEN, E. C. Partition of phosphorus in relation to phosphatase in colostrum and milk of cows iii

CHANDA, R. & OWEN, E. C. The effect of thyroxine and thiouracil on the composition of milk. 2. The carotene and vitamin A content 404

CHARLWOOD, P. A. Sedimentation and diffusion of human albumins. 1. Normal human albumins at a low concentration 113

CLOWES, R. C. *see* BRAY, H. G. 70

COATES, M. E., FORD, J. E., HARRISON, G. F., KON, S. K. & PORTER, J. W. G. Some properties of vitamin B_{12}-like factors from calf faeces. 2. Biological activities and interrelationships vi

COLLINS, F. D. The distribution of vitamin A in the rat-liver cytoplasm xxxviii

COLLINS, F. D., LOVE, R. M. & MORTON, R. A. Studies in rhodopsin. 4. Preparation of rhodopsin 292

COLLINS, F. D., LOVE, R. M. & MORTON, R. A. Studies in rhodopsin. 5. Chemical analysis of retinal material 669

COLLINS, F. D. *see also* LOVE, R. M. xxxvii

CONSDEN, R. & STANIER, W. M. Ionophoresis of sugars on paper and some applications to the analysis of protein-polysaccharide complexes xix

CONSTABLE, B. J. *see* BLAND, M. N. xxxv; HUGHES, R. E. xxxv

Index of Subjects

Note. Entries marked with an asterisk (*) refer to communications made in title only.
Entries marked with a section mark (§) refer to contributions to Symposia.
Small roman numerals refer to pages in *Proceedings of the Biochemical Society.*

Abomasum, sheep, metabolism of short-chain fatty acids by (Pennington, R. J.) 251
§Absorption of fat, defective, in man (French, J. M.) xiv
§Absorption of fat, mechanism of (Frazer, A. C.) xiii
§Absorption of lipids, comparison with excretion (Cook, R. P.) xiii
Acetate, [*carboxy*-^{14}C]-, incorporation into lactose and glycerol by the udder of the lactating goat (Popják, G., Glascock, R. F. & Folley, S. J.) xxv
Acetate, conjugation of aminophenols and benzoxazoles with, in the rabbit (Bray, H. G., Clowes, R. C. & Thorpe, W. V.) 70
Acetate in baker's yeast, oxidation of (Krebs, H. A., Gurin, S. & Eggleston, L. V.) 614
Acetate, oxidation by *Achromobacter* (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
Acetic acid in *Ascaris lumbricoides* (Moyle, V. & Baldwin, E.) 504
Acetic acid, metabolism by rumen epithelium tissue (Pennington, R. J.) 251
Acetoacetic acid, estimation of (Thin, C. & Robertson, A.) 218
Acetobacter suboxydans, influence of pH value and of carbon source on the nutritional requirements of (Hall, A. N., Tiwari, K. S. & Walker, T. K.) xxxvi
Acetone and acetone bodies, estimation of (Thin, C. & Robertson, A.) 218
Acetylcholine, chromatography of (Whittaker, V. P. & Wijesundera, S.) 348
N-Acetylchondrosamine, colorimetric determination of (Aminoff, D., Morgan, W. T. J. & Watkins, W. M.) 379
N-Acetylglucosamine, colorimetric determination of (Aminoff, D., Morgan, W. T. J. & Watkins, W. M.) 379
N-Acetylhexosamines, action of dilute alkali on, and their colorimetric determination (Aminoff, D., Morgan, W. T. J. & Watkins, W. M.) 379
Acetyl-β-methylcholine, chromatography of (Whittaker, V. P. & Wijesundera, S.) 348
Achromobacter, isolation from soil (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278, 284
Acid phosphatases, chromatography and detection of (Giri, K. V., Prasad, A. L. N., Gowri Devi, S. & Sri Ram, J.) 123
§Acids, essential fatty, relation to pyridoxine (Sinclair, H. M.) xvi
§Acids, fatty, enzymic oxidation of (Lehninger, A. L.) xv
Acids, fatty, in sheep rumen (El-Shazly, K.) 640
Acids, fatty, metabolism of, by *Proactinomyces opacus* (Webley, D. M. & De Kock, P. C.) 371
Acids of the fats of some Indian fresh-water fish (Pathak, S. P. & Agarwal, C. V.) 264
Acids, short-chain fatty, metabolism in the sheep (Pennington, R. J.) 251
Aconitase, inhibition by inhibitors isolated from tissues poisoned with fluoroacetate (Lotspeich, W. D., Peters, R. A. & Wilson, T. H.) 20
ACTH *see* Adrenocorticotropic hormone
Adaptation, biochemical, studies in (Mandelstam, J.) 674; (Mandelstam, J. & Yudkin, J.) 681, 686
Adaptation of *Bacillus subtilis* to fatty acid (Laser, H.) 57
Adaptation of yeast to galactose and maltose (Mandelstam, J. & Yudkin, J.) 686
Adenosinediphosphate of muscle (Perry, S. V.) 495
Adenosinetriphosphate of muscle (Perry, S. V.) 495
Adrenal cortex, rat, adenosinetriphosphatase activity of homogenates of (Gordon, J. J.) 97
Adrenal cortex, rat, aliphatic esterase activity of homogenates of (Gordon, J. J.) 97
Adrenal cortex, rat, cholinesterase activity of homogenates of (Gordon, J. J.) 97
Adrenal cortex, rat, phosphomonoesterase activity of homogenates of (Gordon, J. J.) 97
Adrenal cortex, rat, pyrophosphatase activity of homogenates of (Gordon, J. J.) 97
Adrenaline, estimation in blood (Weil-Malherbe, H. & Bone, A. D.) 311
Adrenochrome, estimation in blood (Weil-Malherbe, H. & Bone, A. D.) 311
Adrenocorticotropic hormone administration to young guinea pigs, increase in liver weight produced by (Bland, M. N., Constable, B. J., Harris, L. J. & Hughes, R. E.) xxxv; (Hughes, R. E., Harris, L. J., Constable, B. J. & Bland, M. N.) xxxv
Adrenocorticotropic hormone, effect on the dehydroascorbic acid of human blood plasma (Stewart, C. P., Horn, D. & Robson, J. S.) xx
Adsorption of dyes on bovine serum albumin by polarization of fluorescence (Laurence, D. J. R.) 168
α-Alanine, complexes with Group II metals (Perkins, D. J.) 487
Alanine, non-intermediate in oxidation of pyruvic acid oxime (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
Alanine synthesis in bacteria (Fairhurst, A. S., King, H. K. & Sewell, C. E.) xi
Albumin, bovine serum, adsorption of dyes on, by polarization of fluorescence (Laurence, D. J. R.) 168
Albumin, bovine serum, fluorescent conjugates of (Weber, G.) 155
Albumins, human, sedimentation and diffusion of (Charlwood, P. A.) 113
Alcohols, metabolism of, by *Proactinomyces opacus* (Webley, D. M. & De Kock, P. C.) 371
Aldehyde oxidase, probable identity with xanthine oxidase (Morell, D. B.) 657
Aldehyde reagents, inhibition of arylsulphatase by (Robinson, D., Smith, J. N., Spencer, B. & Williams, R. T.) 202
Alkaline phosphatases, chromatography and detection of (Giri, K. V., Prasad, A. L. N., Gowri Devi, S. & Sri Ram, J.) 123
Alloxan-diabetic rat, effect of salicylate on glycosuria, blood glucose and liver glycogen of (Smith, M. J. H., Meade, B. W. & Bornstein, J.) 18
Amide, amino-acid, in the groundnut plant (*Arachis hypogaea*) (Done, J. & Fowden, L.) 451
Amine oxidase activity of rat liver in riboflavin deficiency (Hawkins, J.) 399
Amines, aliphatic, separation and identification by gas-liquid partition chromatography (James, A. T.) viii
Amines, catechol-type derivatives in blood (Weil-Malherbe, H. & Bone, A. D.) 311
Amino-acid amide in the groundnut plant (*Arachis hypogaea*) (Done, J. & Fowden, L.) 451
Amino-acid complexes with metals of Group II (Perkins, D. J.) 487

Amino-acid composition of licheniformins (Callow, R. K. & Work, T. S.) 558
D-Amino-acid oxidase, absence from *Bacillus subtilis* (Spencer, R. E. J. & Powell, J. F.) 239
D-Amino-acid oxidase, behaviour with flavin-adenine dinucleotide (Morell, D. B.) 657
D-Amino-acid oxidase, determination in rat-liver extracts in riboflavin deficiency (Hawkins, J.) 399
L-Amino-acid oxidase, absence from *Bacillus subtilis* and *Bacillus megatherium* (Spencer, R. E. J. & Powell, J. F.) 239
Amino-acids and respiration of root-nodule bacteria (Burris, R. H. & Wilson, P. W.) 90
Amino-acids, colorimetric determinations as *N*-dinitrophenyl derivatives (Callow, R. K. & Work, T. S.) 558
Amino-acids, effects of high-voltage cathode rays on aqueous solutions of (Proctor, B. E. & Bhatia, D. S.) 535
Amino-acids, systematic method for the separation of (Partridge, S. M. & Brimley, R. C.) 628
α-Amino-acyl peptides, enzymic transpeptidation reactions involving (Hanes, C. S., Hird, F. J. R. & Isherwood, F. A.) 25
2-Amino-4-nitrophenol in rat urine after feeding 2:4-dinitrophenol (Parker, V. H.) 363
4-Amino-2-nitrophenol, formation by rat liver from 2:4-dinitrophenol (Parker, V. H.) 363
Aminophenols, metabolism in the rabbit (Bray, H. G., Clowes, R. C. & Thorpe, W. V.) 70
δ-Aminovaleric acid, formation by the reduction of L-proline by the micro-organisms of sheep rumen (El-Shazly, K.) 647
Ammonia in rumen fluid (McDonald, I. W.) 86
Ammonia in sheep rumen (El-Shazly, K.) 640
Ammonia, non-intermediate in oxidation of pyruvic acid oxime (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
Ammonia, production from casein hydrolysate by rumen contents (El-Shazly, K.) 647
Ammonia, role in ruminal digestion of protein (McDonald, I. W.) 86
Amphibia, distribution of vitamins A_1 and A_2 in (Love, R. M., Collins, F. D. & Morton, R. A.) xxxvii
α-Amylase, action on glycogen (Peat, S., Roberts, P. J. P. & Whelan, W. J.) xvii
α-Amylase, salivary, action pattern of (Roberts, P. J. P. & Whelan, W. J.) xviii
β-Amylase, action on some glycogens (Manners, D. J.) xxx
Amylases from various sources, chromatography of; techniques for detection of (Giri, K. V., Prasad, A. L. N., Gowri Devi, S. & Sri Ram, J.) 123
Androst-16-en-3α-ol, isolation from women's urine (Brooksbank, B. W. L. & Haslewood, G. A. D.) 286
Aneurin in cow's milk, effect of thyroxine and thiouracil on (Chanda, R., McNaught, M. L. & Owen, E. C.) 543
Aneurin, protein-bound, relation to phosphatase in colostrum and milk of cows (Chanda, R. & Owen, E. C.) xix
Anhydroranol from frog bile (Haslewood, G. A. D.) 139
Anions, univalent, reactivation of glutaminase by (Hughes, D. E. & Williamson, D. H.) 45
Anthocyanins in Forastero beans (Forsyth, W. G. C.) 511
Antibiotic peptides, separation of licheniformin into, by the use of counter-current distribution (Callow, R. K. & Work, T. S.) 558
Anticoagulant activity of dextran sulphate (Ricketts, C. R.) 129
Arachin, protein of groundnut (Thomson, R. H. K.) 118
Arachis hypogaea, groundnut, oil, tocopherols and vitamin E in (Brown, F.) 237
Arachis hypogaea, groundnut, proteins of (Thomson, R. H. K.) 118
Arachis hypogaea, new amino-acids in (Done, J. & Fowden, L.) 451
Arginase, hepatic, of rat, effect of dietary protein on (Mandelstam, J. & Yudkin, J.) 681
Arginine, formation of citrulline by *Staphylococcus aureus* in a medium containing (Lominski, I., Morrison, R. B. & Porter, I. A.) xvii
Artichoke tuber, Jerusalem, seasonal changes in the carbohydrates of (Bacon, J. S. D. & Loxley, R.) 208
Arylsulphatase activity in marine molluscs (Dodgson, K. S., Lewis, J. I. M. & Spencer, B.) xlii
Arylsulphatase activity of takadiastase towards some phenolic ethereal sulphates (Robinson, D., Smith, J. N., Spencer, B. & Williams, R. T.) 202
Arylsulphatase, bacterial (Whitehead, J. E. M., Morrison, A. R. & Young, L.) 585
Arylsulphatase of *Patella vulgata*, purification of (Dodgson, K. S. & Spencer, B.) xliii
Arylsulphatase of rat tissues, assay of (Dodgson, K. S., Spencer, B. & Thomas, J.) i
Ascaris lumbricoides, steam-volatile fatty acids in (Moyle, V. & Baldwin, E.) 504
Ascorbic acid in cow's milk, effect of thyroxine and thiouracil on (Chanda, R., McNaught, M. L. & Owen, E. C.) 543
Aspergillus fumigatus mut. *helvola* Yuill, isolation of helvolic acid from (Williams, T. I.) 538
Aspergillus niger, chromatography of amylases from (Giri, K. V., Prasad, A. L. N., Gowri Devi, S. & Sri Ram, J.) 123
Auroxanthin in berries of *Lonicera japonica* (Goodwin, T. W.) 458
Azide, inhibition of the activity of pyruvic acid oxime by (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278

Bacillus megatherium, flavin-adenine dinucleotide and diaphorase in (Spencer, R. E. J. & Powell, J. F.) 239
Bacillus subtilis, adaptation to fatty acids (Laser, H.) 57
Bacillus subtilis, flavin-adenine dinucleotide and diaphorase in (Spencer, R. E. J. & Powell, J. F.) 239
Bacteria, alanine synthesis in (Fairhurst, A. S., King, H. K. & Sewell, C. E.) xi
Bacteria, arylsulphatase of (Whitehead, J. E. M., Morrison, A. R. & Young, L.) 585
Bacteria, cytochrome *b* in (Eddy, B. P., Ingram, M. & Mapson, L. W.) 375
Bacteria, inhibition of cozymase synthesis in, by halogen-substituted nicotinic acids (Hughes, D. E.) xxii
Bacteria, isolation from soil perfused with pyruvic acid oxime (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 284
Bacterial nutrition, tryptophan dipeptides in (Marshall, J. H. & Woods, D. D.) ii
Bacterial spores, flavin-adenine dinucleotide and diaphorase in (Spencer, R. E. J. & Powell, J. F.) 239
Barium in ash of pigment fractions from mammalian eyes (Bowness, J. M., Morton, R. A., Shakir, M. H. & Stubbs, A. L.) 521
Bases, volatile, separation and identification by gas-liquid partition chromatography (James, A. T.) viii, *xxvii
Benzene, metabolism of (Parke, D. V. & Williams, R. T.) 339
[1-^{14}C]-Benzene, metabolism of (Parke, D. V. & Williams, R. T.) xxxi
Benzoxazole, metabolism in the rabbit (Bray, H. G., Clowes, R. C. & Thorpe, W. V.) 70
Benzoxazolone, metabolism in the rabbit (Bray, H. G., Clowes, R. C. & Thorpe, W. V.) 70
Benzoylcholine, chromatography of (Whittaker, V. P. & Wijesundera, S.) 348

Benzoylcholine, hydrolysis by preparations from the central nervous system (Ord, M. G. & Thompson, R. H. S.) 245
Beryllium, complexes with amino-acids (Perkins, D. J.) 487
Bhakur fish, fats of viscera and liver of (Pathak, S. P. & Agarwal, C. V.) 264
Bicarbonate, ^{14}C-labelled, metabolism in the cat (Kornberg, H. L., Davies, R. E. & Wood, D. R.) 351
'Bile salts', comparative studies of (Haslewood, G. A. D.) 139
Bis(dimethylamino)phosphonous anhydride, mammalian metabolism of (Gardiner, J. E. & Kilby, B. A.) 78
Blood, adrenaline-like substances in (Weil-Malherbe, H. & Bone, A. D.) 311
Blood, ^{14}C in, after injection of ^{14}C-labelled bicarbonate (Kornberg, H. L., Davies, R. E. & Wood, D. R.) 351
Blood, cow's, tocopherols and vitamin E in (Brown, F.) 237
Blood, estimation of acetone bodies in (Thin, C. & Robertson, A.) 218
Blood-group mucoids, action of dilute alkali on, and their colorimetric determination (Aminoff, D., Morgan, W. T. J. & Watkins, W. M.) 379
Blood of the hatching chick, iron in (Ramsay, W. N. M.) 289
Blood plasma, human, effect of cortisone and adrenocorticotropic hormone on the dehydroascorbic acid of (Stewart, C. P., Horn, D. & Robson, J. S.) xx
Blood, rat, effect of vitamin A deficiency on the pyruvate and α-ketoglutarate levels of (Goodwin, T. W. & Williams, G. R.) 708
Blood serum protein-bound carbohydrate in patients with neoplasms, effect of nitrogen mustard or X- or radium-irradiation treatment on the level of (Keyser, J. W.) xlvi
Bone, ^{14}C in, after injection of ^{14}C-labelled bicarbonate (Kornberg, H. L., Davies, R. E. & Wood, D. R.) 351
Bone, manganese content of (Fore, H. & Morton, R. A.) 598
Bovine serum albumin, fluorescent conjugates of (Weber, G.) 155
Brain, counter-current distribution of phospholipins of (Lovern, J. A.) 464
Brain, dog, phosphorus in (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 470
Brain, mammalian, hydrolysis of choline esters by (Ord, M. G. & Thompson, R. H. S.) 245
Brain, rat, action on 2:4-dinitrophenol (Parker, V. H.) 363
Brain tissue, uptake of ^{35}S from L-cystine into (Gaitonde, M. K. & Richter, D.) xxxix
Branched-chain fatty acids in sheep rumen (El-Shazly, K.) 640, 647
Bromide, reactivation of glutaminase by (Hughes, D. E. & Williamson, D. H.) 45
Bromine atoms, effect on the adsorption of dyes on serum albumin (Laurence, D. J. R.) 168
Bromocresol green as inhibitor of glutaminase (Hughes, D. E. & Williamson, D. H.) 45
Butyric acid in sheep rumen (El-Shazly, K.) 640
Butyric acid, metabolism by rumen epithelium tissue (Pennington, R. J.) 251
n-Butyric acid in *Ascaris lumbricoides* (Moyle, V. & Baldwin, E.) 504
*iso*Butyric acid in sheep rumen (El-Shazly, K.) 640
Butyro-cholinesterase of human nervous tissue (Ord, M. G. & Thompson, R. H. S.) 245
Butyrylcholine, hydrolysis by preparations from the central nervous system (Ord, M. G. & Thompson, R. H. S.) 245
Buds of yeast cell wall (Northcote, D. H. & Horne, R. W. 232

Cabbage leaves, preparation of glycyl transpeptidase from (Hanes, C. S., Hird, F. J. R. & Isherwood, F. A.) 25
Cacao, fermentation of (Forsyth, W. G. C.) 516
Cacao, polyphenols from (Forsyth, W. G. C.) 511, 516
Cadaverine, effect of histaminase on (Kapeller-Adler, R.) 610
Cadmium, complexes with amino-acids (Perkins, D. J.) 487
Caecum, sheep, metabolism of short-chain fatty acids by (Pennington, R. J.) 251
Calciferol, vitamin D balance experiments in rats administered a massive dose of (Cruickshank, E. M. & Kodicek, E.) xlii
Calcium in ash of pigment fractions from mammalian eyes (Bowness, J. M., Morton, R. A., Shakir, M. H. & Stubbs, A. L.) 521
Calcium in cow's milk, effect of thyroxine and thiouracil on (Chanda, R., McNaught, M. L. & Owen, E. C.) 543
Calcium in fish and frog eyes (Bowness, J. M. & Morton, R. A.) 530
Calf faeces, some properties of vitamin B_{12}-like factors from (Ford, J. E. & Porter, J. W. G.) v; (Coates, M. E., Ford, J. E., Harrison, G. F., Kon, S. K. & Porter, J. W. G.) vi
Caprifoliaceae, carotenoids of fruit (Goodwin, T. W.) 458
Carbohydrate, blood serum protein-bound, in patients with neoplasms, effect of nitrogen mustard or X- or radium-irradiation treatment on the level of (Keyser, J. W.) xlvi
Carbohydrate in mycelium of *Penicillium griseofulvum* (Smithies, W. R.) 259
Carbohydrates of the Jerusalem artichoke tuber, seasonal changes in (Bacon, J. S. D. & Loxley, R.) 208
Carbon dioxide, production from casein hydrolysate by rumen contents (El-Shazly, K.) 647
Carbon in ^{13}C- and ^{14}C-labelled biological material, combustion technique for the assay of (Glascock, R. F.) xxxix
Carboxypeptidase, action of α-rays on (Dale, W. M., Davies, J. V., Gilbert, C. W., Keene, J. P. & Gray, L. H.) 268
Carotene content of milk, effect of thyroxine and thiouracil on (Chanda, R. & Owen, E. C.) 404
Carotene synthesis by some naturally occurring mutants of *Phycomyces blakesleeanus* and by *Phycomyces nitens* (Goodwin, T. W. & Griffiths, L. A.) xxxiii
Carotene synthesis in *Phycomyces blakesleeanus* (Goodwin, T. W. & Willmer, J. S.) 213
β-Carotene in goat liver and colostrum (Chanda, R. & Owen, E. C.) iv
Carotenes (β-, ζ- and γ-) in berries of *Lonicera japonica* (Goodwin, T. W.) 458
Carotenogenesis, studies in (Goodwin, T. W. & Willmer, J. S.) 213
Carotenoids of *Lonicera japonica* (honeysuckle) (Goodwin, T. W.) 458
Cat, metabolism of ^{14}C-labelled bicarbonate in (Kornberg, H. L., Davies, R. E. & Wood, D. R.) 351
Catalase, ox-liver, solubility analysis of (Brown, G. L.) 569
Catalytic method for the microdetermination of manganese in biological material (Fore, H. & Morton, R. A.) 585
Catechin, oxidation in fermentation of cacao (Forsyth, W. G. C.) 516
Catechins of cacao (Forsyth, W. G. C.) 511
Catechol, amine derivatives of, in blood (Weil-Malherbe, H. & Bone, A. D.) 311

Cathode rays, high-voltage, effects on aqueous solutions of tryptophan, tyrosine, phenylalanine and cystine (Proctor, B. E. & Bhatia, D. S.) 535
Catla buchanani, fats of viscera and liver of (Pathak, S. P. & Agarwal, C. V.) 264
Cattle, copper and zinc in the eyes of (Bowness, J. M., Morton, R. A., Shakir, M. H. & Stubbs, A. L.) 521
Cell structure, mechanical cutter for preparing small tissue specimens with minimal disturbance of (McIlwain, H. & Buddle, H. L.) xxviii
Cell wall, yeast, chemical composition and structure of (Northcote, D. H. & Horne, R. W.) 232
Central nervous system, pseudo-cholinesterase activity in (Ord, M. G. & Thompson, R. H. S.) 245
Cerebrum, cholinesterase of (Ord, M. G. & Thompson, R. H. S.) 245
Ceroplastes, composition of the honeydew excreted by (Hackman, R. H. & Trikojus, V. M.) 653
Cetavlon *see* Cetyl trimethylammonium bromide
Cetyl trimethylammonium bromide, acceleration of the decarboxylation of glutamine and glutamic acid in intact cells and extracts of *Clostridium welchii* by (Hughes, D. E. & Williamson, D. H.) 45
Cetyl trimethylammonium bromide, effect on absorption spectra of dyes (Laurence, D. J. R.) 168
Chain length, minimum, for *Q*-enzyme action (Bailey, J. M., Peat, S. & Whelan, W. J.) xxxiv
Chick, hatching, iron in the liver and blood of (Ramsay, W. N. M.) 289
Chickens, inhibitory substance for *Streptococcus agalactiae* in (Berridge, N. J. & Barrett, J.) iii
Chitin in mycelium of *Penicillium griseofulvum* (Smithies, W. R.) 259
Chloral hydrate, liberation of chloride ions from (Bray, H. G., Thorpe, W. V. & Vallance, D. K.) 193
Chloride in cow's milk, effect of thyroxine and thiouracil on (Chanda, R., McNaught, M. L. & Owen, E. C.) 543
Chloride, reactivation of glutaminase by (Hughes, D. E. & Williamson, D. H.) 45
Chloromycetin, inhibitory action on nitrate formation from pyruvic acid oxime in soil (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
Chloroplast, breakdown of ribonucleic acids of (Parker, G.) 389
Chloroplast fractions, phosphorus of (Holden, M.) 433
Choline, chromatography of (Whittaker, V. P. & Wijesundera, S.) 348
Choline deficiency, effects of cold environment on deposition of fat in the liver in (Sellers, E. A. & You, R. W.) 573
Choline esters, chromatography of (Whittaker, V. P. & Wijesundera, S.) 348
Cholinesterase activity, pseudo-, in the central nervous system (Ord, M. G. & Thompson, R. H. S.) 245
Cholinesterase, pseudo-, determination of the molar concentration in serum (Myers, D. K.) 303
Chromatographic examination of cod-liver oil (Morton, R. A.) xxxvii
Chromatography, displacement, on synthetic ion-exchange resins (Partridge, S. M. & Brimley, R. C.) 628
Chromatography, filter-paper, of licheniformins (Callow, R. K. & Work, T. S.) 558
Chromatography, gas-liquid partition, separation and identification of volatile bases by (James, A. T.) viii, *xxvii
Chromatography of amylases, techniques for detection of (Giri, K. V., Prasad, A. L. N., Gowri Devi, S. & Sri Ram, J.) 123
Chromatography of choline esters (Whittaker, V. P. & Wijesundera, S.) 348
Chromatography of phosphatases, techniques for detection of (Giri, K. V., Prasad, A. L. N., Gowri Devi, S. & Sri Ram, J.) 123
Chromatography of vitamin D, preparation of floridin earth for (Green, J.) 144
Chromatography, paper, identification and separation of enzymes by (Giri, K. V., Prasad, A. L. N., Gowri Devi, S. & Sri Ram, J.) 123
*Chromatography, paper, of steroids, improvements and precautions in methods for (Bush, I. E.) xxviii
Chromatography, paper, of urinary phenolic acids, polyphenols and oestrogens (Boscott, R. J.) xlv
Chromatography, paper, separation of tocopherol mixtures by (Brown, F.) 237
Chromatography, separation and estimation of naturally occurring substances containing ^{131}I by (Gross, J. & Martin, A. J. P.) xxvii
Cholesterol, conversion to 7-dehydrocholesterol *in vivo* (Glover, M., Glover, J. & Morton, R. A.) 1
Cholinesterase, erythrocyte, inhibition by tri-esters of phosphoric acid (Aldridge, W. N. & Davison, A. N.) 62
Cholinesterase, inhibition of, by incubation with bis(dimethylamino)phosphonous anhydride (Gardiner, J. E. & Kilby, B. A.) 78
Citrulline, formation of *Staphylococcus aureus* in a medium containing arginine (Lominski, I., Morrison, R. B. & Porter, I. A.) xvii
Clostridium welchii, properties of the glutaminase of (Hughes, D. E. & Williamson, D. H.) 45
Clot-weight method, determination of plasma fibrinogen by (Ingram, G. I. C.) 583
[^{14}C]Carbon dioxide, technique of gas counting of (Holloway, R. C. & McFarlane, A. S.) xxvii
Cocarboxylase in cow's milk, effect of thyroxine and thiouracil on (Chanda, R., McNaught, M. L. & Owen, E. C.) 543
Cocarboxylase in relation to phosphatase in colostrum and milk of cows (Chanda, R. & Owen, E. C.) xix
Coccids of the genus *Ceroplastes*, composition of the honeydew excreted by (Hackman, R. H. & Trikojus, V. M.) 653
Cocksfoot grass, tocopherols and vitamin E in (Brown, F.) 237
Cod-liver oil, chromatographic examination of (Morton, R. A.) xxxvii
Coenzyme of histaminase, pyridoxal phosphate as (Sinclair, H. M.) x
Coenzyme I required for metabolism of pregnane-3α:20α-diol (Grant, J. K.) 358
Cold environment, effects on deposition of fat in the liver in choline deficiency (Sellers, E. A. & You, R. W.) 573
Collagen formation in rabbit skin (Harkness, R. D. & Neuberger, A.) xxii
Colostrum, goat, β-carotene in (Chanda, R. & Owen, E. C.) iv
Colostrum of cows, cocarboxylase and protein-bound aneurin in relation to phosphatase in (Chanda, R. & Owen, E. C.) xix
Colostrum of cows, partition of phosphorus in relation to phosphatase in (Chanda, R. & Owen, E. C.) iii
Combustion technique for the assay of tritium, ^{13}C and ^{14}C in a single sample of biological material (Glascock, R. F.) xxxix
Complexes of amino-acids with metals of Group II (Perkins, D. J.) 487
Conarachin, protein of groundnut (Thomson, R. H. K.) 118
Conjugation of aminophenols and benzoxazoles in rabbit (Bray, H. G., Clowes, R. C. & Thorpe, W. V.) 70
Cooling, effect on permeability of yeast to acids (Krebs, H. A., Gurin, S. & Eggleston, L. V.) 614
Copper, distribution in mammalian eyes (Bowness, J. M. Morton, R. A., Shakir, M. H. & Stubbs, A. L.) 521

Copper, micro-estimation of (Bowness, J. M., Morton, R. A., Shakir, M. H. & Stubbs, A. L.) 521
Copper, occurrence in melanin fractions from eye tissues (Bowness, J. M. & Morton, R. A.) 530
Coproporphyrin I in urine in lead poisoning (Kench, J. E., Lane, R. E. & Varley, H.) ix
Coprostanic acid, synthesis from ethyl cholanate (Bridgwater, R. J. & Haslewood, G. A. D.) xxiv
Cornea, mucopolysaccharide of (Woodin, A. M.) 319
Cortisone, effect on the dehydroascorbic acid of human blood plasma (Stewart, C. P., Horn, D. & Robson, J. S.) xx
Corynebacterium from soil (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
Cotyledons, changes in, during fermentation of (Forsyth, W. G. C.) 516
Counter-current distribution of licheniformins (Callow, R. K. & Work, T. S.) 558
Counter-current distribution, separation of phospholipins by (Lovern, J. A.) 464
*Counting, gas, of $^{14}CO_2$, technique of (Holloway, R. C. & McFarlane, A. S.) xxvii
Cow's blood, tocopherols and vitamin E in (Brown, F.) 237
Cows, carotene metabolism of (Chanda, R. & Owen, E. C.) 404
Cows, cocarboxylase and protein-bound aneurin in relation to phosphatase in colostrum and milk of (Chanda, R. & Owen, E. C.) xix
Cows, partition of phosphorus in relation to phosphatase in colostrum and milk of (Chanda, R. & Owen, E. C.) iii
Cozymase, reduced, action of xanthine oxidase on (Morell, D. B.) 657
Cozymase, synthesis from nicotinic acid and its derivatives by *Lactobacillus arabinosus* 17–5 (Hughes, D. E. & Williamson, D. H.) 330
Cozymase synthesis in bacteria, inhibition by halogen-substituted nicotinic acids (Hughes, D. E.) xxii
Crabs, non-protein nitrogen fraction of the flesh of (Fraser, D., Kermack, W. O., Lees, H. & Wood, J. D.) xxxii
Creatine in cow's milk, effect of thyroxine and thiouracil on (Chanda, R., McNaught, M. L. & Owen, E. C.) 543
Cryptoxanthin in berries of *Lonicera japonica* (Goodwin, T. W.) 458
*Cup-plate assay of enzymes and its application to the study of micro-fungi (Dingle, J., Reid, W. W. & Solomons, G. L.) xlvii
Cutter, mechanical, for preparing small tissue specimens with minimal disturbance of cell structure (McIlwain, H. & Buddle, H. L.) xxviii
Cyanide, inhibition of arylsulphatase by (Robinson, D., Smith, J. N., Spencer, B. & Williams, R. T.) 202
Cyanide, inhibition of the activity of pyruvic acid oxime by (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
Cyanide, reactivation of glutaminase by (Hughes, D. E. & Williamson, D. H.) 45
Cyanidin, conversion to leucocyanidins in fermentation of cacao (Forsyth, W. G. C.) 516
Cyanidin derivatives in Forastero beans (Forsyth, W. G. C.) 511
Cystine, effects of high-voltage cathode rays on aqueous solutions of (Proctor, B. E. & Bhatia, D. S.) 535
L-Cystine, uptake into brain tissue of ^{35}S from (Gaitonde, M. K. & Richter, D.) xxxix
Cytochrome, role in hydrogen transport (Eddy, B. P., Ingram, M. & Mapson, L. W.) 375
Cytochrome c, reduction by hypoxanthine and xanthine oxidase (Morell, D. B.) 666
Cytoplasm, rat-liver, distribution of vitamin A in (Collins, F. D.) xxxviii
Dactylis glomerata, cocksfoot grass, tocopherols and vitamin E in (Brown, F.) 237
Dehydroascorbic acid, cytochrome in (Eddy, B. P., Ingram, M. & Mapson, L. W.) 375
Dehydroascorbic acid of human blood plasma, effect of cortisone and adrenocorticotropic hormone on (Stewart, C. P., Horn, D. & Robson, J. S.) xx
Dehydroascorbic acid, reduction by bacteria (Eddy, B. P., Ingram, M. & Mapson, L. W.) 375
Dehydrogenases, quantitative determination in cell suspensions with triphenyltetrazolium bromide (Fahmy, A. R. & Walsh, E. O'F.) 55
Demethylation of methyl xanthine during metabolism (Johnson, E. A.) 133
Density gradient, centrifugation of sucrose in solution with (Collins, F. D., Love, R. M. & Morton, R. A.) 292
Deoxypentosenucleic acid, determination by ultraviolet absorption (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 470
Deoxypentosenucleic acid, determination in tissue from the nervous system by ultraviolet absorption (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 480
Deoxypentosenucleic acids in retinas and rod outer segments (Collins, F. D., Love, R. M. & Morton, R. A.) 669
Deoxyribonucleic acid, phosphorus of (Holden, M.) 433
Deoxyribonucleic acid, synthesis from ribonucleic acid during tissue regeneration (Marrian, D. H.) i
Detoxication, studies in (Robinson, D., Smith, J. N., Spencer, B. & Williams, R. T.) 202; (Parke, D. V. & Williams, R. T.) 339
Dextran sulphate, synthetic analogue of heparin (Ricketts, C. R.) 129
Diamine oxidase, observations on (Kapeller-Adler, R.) xxi
Diaphorase in bacterial spores (Spencer, R. E. J. & Powell, J. F.) 239
Di-2-chloroethylmethylamine, immunological properties of proteins treated with (Watkins, W. M. & Wormall, A.) 577
Diethyl *p*-nitrophenyl phosphate, inhibition of erythrocyte cholinesterase by (Aldridge, W. N. & Davison, A. N.) 62
Diffusiometer, Gouy, use with dilute protein solutions (Creeth, J. M.) 10
Diffusion of fumarase (Massey, V.) 490
Diffusion of human albumins (Charlwood, P. A.) 113
Diffusion of licheniformins A, B and C (Ogston, A. G.) 569
Dihydroxyphenylalanines, formation of monohydroxyindoles from (Harley-Mason, J. & Cromartie, R. I. T.) xxiv
p-Dimethylaminobenzaldehyde, interaction with alkali-treated hexosamines and mucoids (Aminoff, D., Morgan, W. T. J. & Watkins, W. M.) 379
Dimethylaminonaphthalenesulphonyl derivatives of proteins, fluorescent measurement of (Weber, G.) 155
Dimethylcarbamate of (2-hydroxy-5-phenylbenzyl)-trimethylammonium bromide (Nu 683), reversible inhibition of pseudo-cholinesterase by (Myers, D. K.) 303
4:6-Dinitro-o-cresol, elimination by man and by animals (King, E. & Harvey, D. G.) vii
2:4-Dinitrophenol, enzymic reduction by rat tissues (Parker, V. H.) 363
Dioxan, effect on absorption spectra of dyes (Laurence, D. J. R.) 168
Dipeptides, tryptophan, in bacterial nutrition (Marshall, J. H. & Woods, D. D.) ii
Displacement chromatography on synthetic ion-exchange resins (Partridge, S. M. & Brimley, R. C.) 628
Dissociation constants of solutions and sequence of displacement (Partridge, S. M. & Brimley, R. C.) 628

Disulphide, breakup of, in cystine by cathode rays (Proctor, B. E. & Bhatia, D. S.) 535
Drying, stability of lipovitellin to (Lea, C. H. & Hawke, J. C.) xxiii
Duodenum, 7-dehydrosteroid in (Glover, M., Glover, J. & Morton, R. A.) 1

E 600 *see* Diethyl *p*-nitrophenyl phosphate
Edestin, retention analysis of (Robinson, F. A. & Fehr, K. L. A.) 298
Egg albumin, isolation of amino-acids from hydrolysate of (Partridge, S. M. & Brimley, R. C.) 628
Egg, hen embryonated, iron metabolism and haemoglobin formation in (Ramsay, W. N. M.) 289
Eggs, avian, incorporation of zinc (^{65}Zn) into (Tupper, R., Watts, R. W. E. & Wormall, A.) ix
Electron microscope, examination of yeast cell wall using (Northcote, D. H. & Horne, R. W.) 232
Electrophoresis, filter paper, of proteins, photoelectric scanning device for (Latner, A. L., Braithwaite, F. & Nunn, R. A.) x
Electrophoresis of fumarase (Massey, V.) 490
Electrophoresis on filter paper, apparatus for (Latner, A. L.) xii
Electrophoresis on filter paper, photometry of proteins separated by (Crook, E. M., Harris, H. & Warren, F. L.) xxvi
Electrophoresis, paper, of serum proteins, visual matching technique for (Latner, A. L. & Richardson, M. W.) xxxi
Embryonated hen egg, iron metabolism and haemoglobin formation in (Ramsay, W. N. M.) 289
End-group assay of licheniformins (Callow, R. K. & Work, T. S.) 558
Energy intake and ribonucleic acid metabolism (Munro, H. N., Naismith, D. J. & Wikramanayake, T. W.) vii
Enzyme adaptation, galactozymase production by yeast in relation to the 'mass action' theory of (Mandelstam, J. & Yudkin, J.) 686
Enzyme adaptation, 'mass action' theory of (Mandelstam, J.) 674
*Enzymes, cup-plate assay of, and its application to the study of micro-fungi (Dingle, J., Reid, W. W. & Solomons, G. L.) xlvii
Enzymes, identification and separation by paper chromatography (Giri, K. V., Prasad, A. L. N., Gowri Devi, S. & Sri Ram, J.) 123
Enzymes in rat adrenal cortex, characterization and assay of (Gordon, J. J.) 97
Enzymes of the potato concerned in the synthesis of starch (Gilbert, G. A. & Patrick, A. D.) 181, 186
§Enzymic oxidation of fatty acids (Lehninger, A. L.) xv
Epithelia, sheep, metabolism of short-chain fatty acids by (Pennington, R. J.) 251
Erythrocyte cholinesterase, inhibition by tri-esters of phosphoric acid (Aldridge, W. N. & Davison, A. N.) 62
Escherichia coli, cell-free dehydrogenase preparations from (Eddy, B. P., Ingram, M. & Mapson, L. W.) 375
Escherichia coli, synthesis of methionine from homocysteine by (Gibson, F. & Woods, D. D.) v
Escherichia coli, uptake of potassium tellurite by a sensitive strain of (Cooper, P. D. & Few, A. V.) 552
Ethanol metabolism, isolation of ethyl-glucuronide (Kamil, I. A., Smith, J. N. & Williams, R. T.) xxxii
Ethereal sulphates, phenolic, arylsulphatase activity of takadiastase towards (Robinson, D., Smith, J. N., Spencer, B. & Williams, R. T.) 202
Ethyl-glucuronide, isolation of (Kamil, I. A., Smith, J. N. & Williams, R. T.) xxxii
Ethylenediamine, condensation with adrenaline and related compounds (Weil-Malherbe, H. & Bone, A. D.) 311
§Excretion of lipids, comparison with absorption (Cook, R. P.) xiii
Expiration of [^{14}C]carbon dioxide after intravenous injection of ^{14}C-labelled bicarbonate (Kornberg, H. L., Davies, R. E. & Wood, D. R.) 351
Eye, fish, distribution of copper and zinc in (Bowness, J. M. & Morton, R. A.) 530
Eye, frog, distribution of copper and zinc in (Bowness, J. M. & Morton, R. A.) 530
Eye, mammalian, distribution of copper and zinc in (Bowness, J. M., Morton, R. A., Shakir, M. H. & Stubbs, A. L.) 521
Eye tissues, distribution of manganese in (Fore, H. & Morton, R. A.) 603

Faeces, calf, some properties of vitamin B_{12}-like factors from (Ford, J. E. & Porter, J. W. G.) v; (Coates, M. E., Ford, J. E., Harrison, G. F., Kon, S. K. & Porter, J. W. G.) vi
§Fat absorption, defective, in man (French, J. M.) xiv
§Fat absorption, mechanism of (Frazer, A. C.) xiii
Fat, effects of cold environment on deposition of, in the liver in choline deficiency (Sellers, E. A. & You, R. W.) 573
Fat, intrascapular, action on 2:4-dinitrophenol (Parker, V. H.) 363
§Fat metabolism in the ruminant (Folley, S. J.) xv
Fats of some Indian fresh-water fish, component acids of (Pathak, S. P. & Agarwal, C. V.) 264
Fatty acid composition of the milk fat of a grey Atlantic seal (Meara, M. L.) 190
Fatty acids (stearic, oleic, linoleic, vaccenic), adaptation of *Bacillus subtilis* to (Laser, H.) 57
§Fatty acids, enzymic oxidation of (Lehninger, A. L.) xv
§Fatty acids, essential, relation to pyridoxine (Sinclair, H. M.) xvi
Fatty acids, metabolism of, by *Proactinomyces opacus* (Webley, D. M. & De Kock, P. C.) 371
Fatty acids, short-chain, metabolism in the sheep (Pennington, R. J.) 251
Fatty acids, steam-volatile, in *Ascaris lumbricoides* (Moyle, V. & Baldwin, E.) 504
Fatty acids, volatile, in sheep rumen (El-Shazly, K.) 640, 647
Fescue grass, tocopherols and vitamin E in (Brown, F.) 237
Festuca pratensis, fescue grass, tocopherols and vitamin E in (Brown, F.) 237
Fibre formation from soluble proteins of *Arachis hypogaea* (Thomson, R. H. K.) 118
Fibrinogen, plasma, determination by the clot-weight method (Ingram, G. I. G.) 583
Fish, Indian fresh-water, component acids of the fats of (Pathak, S. P. & Agarwal, C. V.) 264
*Flame photometer for routine biochemical use (Warren, R. L.) xii
*Flame photometer, routine estimation of sodium and potassium in biological fluids using (Moore, A. E.) xii
Flavin-adenine dinucleotide in bacterial spores (Spencer, R. E. J. & Powell, J. F.) 239
Flavin-adenine nucleotide of xanthine oxidase (Morell, D. B.) 657
Flesh of lobsters and crabs, non-protein nitrogen fractions of (Fraser, D., Kermack, W. O., Lees, H. & Wood, J. D.) xxxii
Floridin earth, preparation for vitamin D chromatography (Green, J.) 144
Fluorescence, measurement of (Weil-Malherbe, H. & Bone, A. D.) 311
Fluorescence of macromolecules, polarization of (Weber, G.) 145, 155
Fluorescence of teeth (Hartles, R. L. & Leaver, A. G.) xxxvi

Fluorescence, polarization of, measurement of adsorption of dyes on bovine serum albumin by (Laurence, D. J. R.) 168
Fluoroacetate, inhibition of aconitase by inhibitors isolated from tissues poisoned with (Lotspeich, W. D., Peters, R. A. & Wilson, T. H.) 20
'Follicular' phase of the menstrual cycle, pregnane-3α:20α-diol in urine during (Brooksbank, B. W. L. & Haslewood, G. A. D.) 286
o-Formamidophenol, metabolism in the rabbit (Bray, H. G., Clowes, R. C. & Thorpe, W. V.) 70
Formazans, colorimetric method for determination of dehydrogenases (Fahmy, A. R. & Walsh, E. O'F.) 55
Free radical mechanism for autoxidation of myoglobin (George, P. & Stratmann, C. J.) 418
Free radicals, possible intermediates in decomposition of amino-acids by cathode rays (Proctor, B. E. & Bhatia, D. S.) 535
Freezing, stability of lipovitellin to (Lea, C. H. & Hawke, J. C.) xxiii
Frequentin, isolation from *Penicillium frequentans* (Birkinshaw, J. H.) 271
Frequentin, structural relationship with palitantin (Curtis, P. J. & Duncanson, L. A.) 276
Fresh-water fish, Indian, component acids of the fats of (Pathak, S. P. & Agarwal, C. V.) 264
Frog, *Rana temporaria*, bile salts of (Haslewood, G. A. D.) 139
Frogs, copper and zinc in the eyes of (Bowness, J. M. & Morton, R. A.) 530
Fructose, occurrence in rabbit-liver glycogen (Peat, S., Roberts, P. J. P. & Whelan, W. J.) xvii
Fruit, carotenes of (Goodwin, T. W.) 458
Fumarase, crystallization and physico-chemical properties of (Massey, V.) 490
Fumigacin, helvolic acid from (Williams, T. I.) 538

Galactosamine in mucopolysaccharide of cornea (Woodin, A. M.) 319
Galactose in mucopolysaccharide of cornea (Woodin, A. M.) 319
Galactose in mycelium of *Penicillium griseofulvum* (Smithies, W. R.) 259
Galactozymase, formation of, at various substrate concentrations (Mandelstam, J. & Yudkin, J.) 686
Galactozymase production by yeast in relation to the 'mass action' theory of enzyme adaptation (Mandelstam, J. & Yudkin, J.) 686
*Gas counting of [^{14}C]carbon dioxide, technique of (Holloway, R. C. & McFarlane, A. S.) xxvii
Gas-liquid partition chromatography of fatty acids (El-Shazly, K.) 640
Gas-liquid partition chromatography, separation and identification of volatile bases by (James, A. T.) viii, *xxvii
Glass homogenizers, serial production of (Brown, D. H., Dodgson, K. S., Sherwood, T. J. & Spencer, B.) xlvii
Gliotoxin from fumigacin (Williams, T. I.) 538
Glucan of yeast cell wall (Northcote, D. H. & Horne, R. W.) 232
Glucosamine in mucopolysaccharide of cornea (Woodin, A. M.) 319
Glucosamine, isolation by displacement chromatography (Partridge, S. M. & Brimley, R. C.) 628
Glucose, blood, of the alloxan-diabetic rat, effect of salicylate on (Smith, M. J. H., Meade, B. W. & Bornstein, J. 18
Glucose in mycelium of *Penicillium griseofulvum* (Smithies, W. R.) 259
Glucose-2-phosphate from uridine-diphosphate-glucose (Paladini, A. C. & Leloir, L. F.) 426
β-Glucuronidase, assay in rat liver (Walker, P. G. & Levvy, G. A.) xx
β-Glucuronidase, preparation and properties of (Walker, P. G.) 223
Glucuronide, conjugation of aminophenols and benzoxazoles with, in the rabbit (Bray, H. G., Clowes, R. C. & Thorpe, W. V.) 70
Glutaminase of *Clostridium welchii*, properties of (Hughes, D. E. & Williamson, D. H.) 45
γ-Glutamyl peptides, enzymic transpeptidation reactions involving (Hanes, C. S., Hird, F. J. R. & Isherwood, F. A.) 25
γ-Glutamyl transpeptidase from kidney, study of (Hanes, C. S., Hird, F. J. R. & Isherwood, F. A.) 25
Glutathione and enzymic transpeptidation (Hanes, C. S., Hird, F. J. R. & Isherwood, F. A.) 25
Glycerides, hydrolysis of, by adrenal homogenates (Gordon, J. J.) 97
Glycerol, incorporation of [*carboxy*-^{14}C]-acetate into, by the udder of the lactating goat (Popják, G., Glascock, R. F. & Folley, S. J.) xxv
Glycerophosphatides of ox brain, counter-current distribution of (Lovern, J. A.) 464
Glycine, complexes with Group II metals (Perkins, D. J.) 487
Glycine, incorporation into rabbit plasma proteins (Dovey, A., Holloway, R. C. & McFarlane, A. S.) xxvi
Glycine, uptake of oxygen by *Rhizobium trifolii* in the presence of (Burris, R. H. & Wilson, P. W.) 90
Glycogen, liver, of the alloxan-diabetic rat, effect of salicylate on (Smith, M. J. H., Meade, B. W. & Bornstein, J.) 18
Glycogen of yeast cell wall (Northcote, D. H. & Horne, R. W.) 232
Glycogen, rabbit-liver, occurrence of fructose in (Peat, S., Roberts, P. J. P. & Whelan, W. J.) xvii
Glycogens, action of crystalline β-amylase on (Manners, D. J.) xxx
Glycolysis, effects of nicotinamide derivatives on (Hughes, D. E. & Williamson, D. H.) 330
Glycosides, polyphenolic, of cacao (Forsyth, W. G. C.) 511
Glycosuria of the alloxan-diabetic rat, effect of salicylate on (Smith, M. J. H., Meade, B. W. & Bornstein, J.) 18
Glycyl groups, transpeptidation of (Hanes, C. S., Hird, F. J. R. & Isherwood, F. A.) 25
Glycyl transpeptidase, preparation from cabbage leaves (Hanes, C. S., Hird, F. J. R. & Isherwood, F. A.) 25
Glycylglycine, complexes with Group II metals (Perkins, D. J.) 487
Glyoxaline derivatives, R_F values of (Hall, D. A.) 499
β-4(5)-Glyoxalinylacrylic acid (urocanic acid), enzymic production from histidine (Hall, D. A.) 499
Goat, lactating, incorporation of [*carboxy*-^{14}C]-acetate into lactose and glycerol by the udder of (Popják, G., Glascock, R. F. & Folley, S. J.) xxv
Goat liver and colostrum, β-carotene in (Chanda, R. & Owen, E. C.) iv
Goats, carotene metabolism of (Chanda, R. & Owen, E. C.) 404
Gouy diffusiometer, use with dilute protein solutions (Creeth, J. M.) 10
Gradient, density, centrifugation of sucrose in solution with (Collins, F. D., Love, R. M. & Morton, R. A.) 292
Gram (*Phaseolus radiatus*), chromatography and techniques for detection of phosphorylase of (Giri, K. V., Prasad, A. L. N., Gowri Devi, S. & Sri Ram, J.) 123
Grass, tocopherols and vitamin E in (Brown, F.) 237
'Green compounds', formation from pyridine-haematin compounds and peroxides (Keilin, J.) 443
Groundnut oil, tocopherols and vitamin E in (Brown, F.) 237
Groundnut plant, new amino-acids in (Done, J. & Fowden, L.) 451

Guinea pigs, increase in liver weight produced by administration of ACTH to (Bland, M. N., Constable, B. J., Harris, L. J. & Hughes, R. E.) xxxv; (Hughes, R. E., Harris, L. J., Constable, B. J. & Bland, M. N.) xxxv
Gut contents of chickens, inhibitory substance for *Streptococcus agalactiae* in (Berridge, N. J. & Barrett, J.) iii

Haem *a*, isolation from heart muscle (Falk, J. E. & Rimington, C.) 36
Haematins, reactions of, with peroxides (Keilin, J.) 443
Haemoglobin, effect on the respiration of the Rhizobia (Burris, R. H. & Wilson, P. W.) 90
Haemoglobin formation in the embryonated hen egg (Ramsay, W. N. M.) 289
Halogen-substituted nicotinic acids, inhibition of cozymase synthesis in bacteria by (Hughes, D. E.) xxii
Heart muscle, porphyrin in (Falk, J. E. & Rimington, C.) 36
Heart, pig, fumarase preparation from (Massey, V.) 490
Helvolic acid, chemical properties of (Williams, T. I.) 538
Hen egg, embryonated, iron metabolism and haemoglobin formation in (Ramsay, W. N. M.) 289
Heparin analogue, synthetic, dextran sulphate (Ricketts, C. R.) 129
Hepatic arginase of rat, effect of dietary protein on (Mandelstam, J. & Yudkin, J.) 681
Hexitols, filter-paper chromatography of (Hackman, R. H. & Trikojus, V. M.) 653
*Hexone bases in protein hydrolysates, picric acid as a reagent for the isolation and estimation of (Robson, W. & Selim, A. S. M.) xxvi
Hexosamine of cornea (Woodin, A. M.) 319
Histaminase, observations on (Kapeller-Adler, R.) xxi
Histaminase of human placenta (Kapeller-Adler, R.) 610
Histaminase of maternal and foetal blood (Kapeller-Adler, R.) 610
Histaminase, pyridoxal phosphate as coenzyme of (Sinclair, H. M.) x
Histamine of human placenta (Kapeller-Adler, R.) 610
Histamine of maternal and foetal blood (Kapeller-Adler, R.) 610
Histidine α-deaminase and the production of urocanic acid in the mammal (Hall, D. A.) 499
Hofmeister series and effect of negative ions on the adsorption of dyes on serum albumin (Laurence, D. J. R.) 168
Homocysteine, synthesis of methionine from, by *Escherichia coli* (Gibson, F. & Woods, D. D.) v
Homogenizers, glass, serial production of (Brown, D. H., Dodgson, K. S., Sherwood, T. J. & Spencer, B.) xlvii
Homogentisic acid, an intermediate in the metabolism of tyrosine by the aromatic ring-splitting micro-organisms (Jones, J. D., Smith, B. S. W. & Evans, W. C.) xi
D-Homosteroids from pregnant mares' urine (Brooks, R. V., Klyne, W., Miller, E. & Paterson, J. Y. F.) 694
Honeydew excreted by Australian coccids of the genus *Ceroplastes*, composition of (Hackman, R. H. & Trikojus, V. M.) 653
Hyaluronidase and corneal mucopolysaccharides (Woodin, A. M.) 319
Hydrocarbons, metabolism of, by *Proactinomyces opacus* (Webley, D. M. & De Kock, P. C.) 371
Hydrogen ion concentration *see* pH
Hydrogen isotopes in mammary gland and other tissues, biological fractionation of (Glascock, R. F. & Duncombe, W. G.) xl
Hydrogen peroxide formation by α-rays (Dale, W. M., Davies, J. V., Gilbert, C. W., Keene, J. P. & Gray, L. H.) 268
Hydrogen peroxide, reactions of, with haematins (Keilin, J.) 443
Hydrogen sulphide, formation from cystine by cathode rays (Proctor, B. E. & Bhatia, D. S.) 535
Hydrogen transport, role of cytochrome in (Eddy, B. P., Ingram, M. & Mapson, L. W.) 375
β-Hydroxybutyric acid, estimation of (Thin, C. & Robertson, A.) 218
Hydroxylamine, inhibition of arylsulphatase by (Robinson, D., Smith, J. N., Spencer, B. & Williams, R. T.) 202
Hydroxylamine, non-intermediate in oxidation of pyruvic acid oxime (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
Hydroxysteroids from pregnant mares' urine (Brooks, R. V., Klyne, W., Miller, E. & Paterson, J. Y. F.) 694
Hypolipotropic diet and fat deposition on rats at low temperatures (Sellers, E. A. & You, R. W.) 573
Hypoxanthine, reduction of cytochrome *c* by (Morell, D. B.) 666

Immunochemistry, studies in (Aminoff, D., Morgan, W. T. J. & Watkins, W. M.) 379
Immunological properties of phosvitin (Francis, G. E.) 715
Immunological properties of proteins treated with di-2-chloroethylmethylamine (Watkins, W. M. & Wormall, A.) 577
Indole, reaction with ethyl formate (Harley-Mason, J. & Bu'lock, J. D.) 430
Indole-3-aldehyde, preparation of urorosein from (Harley-Mason, J. & Bu'lock, J. D.) 430
Indoles, monohydroxy, formation from dihydroxyphenylalanines (Harley-Mason, J. & Cromartie, R. I. T.) xxiv
Indolylmethenes, di-, urorosein salts as derivatives of (Harley-Mason, J. & Bu'lock, J. D.) 430
Infrared spectra of frequentin, palitantin and dihydropalitantin (Curtis, P. J. & Duncanson, L. A.) 276
Infrared spectroscopy of valeric acid from *Ascaris lumbricoides* (Moyle, V. & Baldwin, E.) 504
Inhibition of erythrocyte cholinesterase by tri-esters of phosphoric acid (Aldridge, W. N. & Davison, A. N.) 62
Inhibitors isolated from tissues poisoned with fluoroacetate, inhibition of aconitase by (Lotspeich, W. D., Peters, R. A. & Wilson, T. H.) 20
Inhibitors of pseudo-cholinesterase (Myers, D. K.) 303
Inhibitors of the activity of pyruvic acid oxime (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
Inositide phosphorus, concentration in the white matter of dog brain and in cat sciatic nerve (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 470, 482
Inositol-containing trypsin-resistant lipid-protein in nervous system (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 470
Inositol, effect on amine oxidase of rat liver (Hawkins, J.) 399
Insecticides, organic phosphorus, biochemistry of (Gardiner, J. E. & Kilby, B. A.) 78
Insulin, determination in protamine zinc insulin (Robinson, F. A. & Fehr, K. L. A.) 298
Insulin, paper chromatography of (Robinson, F. A. & Fehr, K. L. A.) 298
Insulin, protamine zinc, estimation of protamine and insulin in (Robinson, F. A. & Fehr, K. L. A.) 298
Intestine, small, 7-dehydrosteroid in (Glover, M., Glover, J. & Morton, R. A.) 1
Intracellular pH, metabolic control by (Caldwell, P. C. & Harris, E. J.) xli
Inulin, changes in carbohydrate composition of Jerusalem artichoke tubers (Bacon, J. S. D. & Loxley, R.) 208
Iodine, reactivation of glutaminase by (Hughes, D. E. & Williamson, D. H.) 45
Iodine, radioactive, chromatographic separation and estimation of naturally occurring substances containing (Gross, J. & Martin, A. J. P.) xxvii

Ion-exchange resins, synthetic, displacement chromatography on (Partridge, S. M. & Brimley, R. C.) 628
Ionophoresis of sugars on paper (Consden, R. & Stanier, W. M.) xix
Ions, organic, effect on the adsorption of dyes on serum albumin (Laurence, D. J. R.) 168
Iron in ash of pigment fractions from mammalian eyes (Bowness, J. M., Morton, R. A., Shakir, M. H. & Stubbs, A. L.) 521
Iron in fish and frog eyes (Bowness, J. M. & Morton, R. A.) 530
Iron metabolism in the embryonated hen egg (Ramsay, W. N. M.) 289
Isotopes, hydrogen, in mammary gland and other tissues, biological fractionation of (Glascock, R. F. & Duncombe, W. G.) xl

Jerusalem artichoke tuber, seasonal changes in the carbohydrates of (Bacon, J. S. D. & Loxley, R.) 208

α-Keto acid oximes, nitrification in soil (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
α-Ketobutyric acid oxime, oxidation by *Achromobacter* (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
α-Ketoglutarate level of rat blood, effect of vitamin A deficiency on (Goodwin, T. W. & Williams, G. R.) 708
α-Ketoglutaric acid oxime, nitrification in soil (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
Ketone body production by rumen epithelium in the sheep (Pennington, R. J.) 251
Kidney, γ-glutamyl transpeptidase from (Hanes, C. S., Hird, F. J. R. & Isherwood, F. A.) 25
Kidney, phosphatases of, chromatography and detection of (Giri, K. V., Prasad, A. L. N., Gowri Devi, S. & Sri Ram, J.) 123
Kidney, rat, action on 2:4-dinitrophenol (Parker, V. H.) 363
Kidney tissue, sheep, metabolism of short-chain fatty acids by (Pennington, R. J.) 251
Kinetics of inhibition of cholinesterase by phosphate inhibitors (Aldridge, W. N. & Davison, A. N.) 62
Kinetics of the oxidation of myoglobin to metmyoglobin by oxygen (George, P. & Stratmann, C. J.) 418

Lactobacillus arabinosus 17–5, synthesis of cozymase from nicotinic acid and its derivatives by (Hughes, D. E. & Williamson, D. H.) 330
Lactobacillus casei, microbiological assay of strepogenin with (Kodicek, E. & Mistry, S. P.) 108
Lactose, incorporation of [*carboxy*-^{14}C]-acetate into, by the udder of the lactating goat (Popják, G., Glascock, R. F. & Folley, S. J.) xxv
Lactose in cow's milk, effect of thyroxine and thiouracil on (Chanda, R., McNaught, M. L. & Owen, E. C.) 543
Lactylcholine, chromatography of (Whittaker, V. P. & Wijesundera, S.) 348
Lead poisoning, urinary coproporphyrin I in (Kench, J. E., Lane, R. E. & Varley, H.) ix
Leaf tissue, phosphorus compounds in (Holden, M.) 433
Leaf, tobacco, enzymic breakdown of ribonucleic acid in (Parker, G.) 389
Lecithin in ox brain (Lovern, J. A.) 464
Leucocyanidins, conversion of cyanidin to, in fermentation of cacao (Forsyth, W. G. C.) 516
Licheniformin, microbiological estimation of lysine, valine and phenylalanine in (De Bouk, K. R.) 567
Licheniformins, molecular weight by ultracentrifugal sedimentation and diffusion (Ogston, A. G.) 569
Lignin, absence in mycelium of *Penicillium griseofulvum* (Smithies, W. R.) 259
Linoleic acid, adaptation of *Bacillus subtilis* to (Laser, H.) 57
§Lipid absorption and excretion, comparative aspects of (Cook, R. P.) xiii
Lipid of yeast cell wall (Northcote, D. H. & Horne, R. W.) 232
Lipid, phosphorus of (Holden, M.) 433
Lipid-protein, inositol-containing trypsin-resistant, in nervous system (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 470
§Lipid synthesis from small molecules (Popják, G.) xiv
Lipogenesis, lipoid formation in *Phycomyces blakesleeanus* (Goodwin, T. W. & Willmer, J. S.) 213
Lipovitellin, exchange reaction with phosvitin (Francis, G. E.) 715
Lipovitellin, stability to freezing and drying (Lea, C. H. & Hawke, J. C.) xxiii
Liquid-gas partition chromatography, separation and identification of volatile bases by (James, A. T.) viii, *xxvii
Liver catalase, ox, solubility analysis of (Brown, G. L.) 569
Liver cytoplasm, rat, distribution of vitamin A in (Collins, F. D.) xxxviii
Liver extract, liberation of chloride ions from organic chloro compounds by (Bray, H. G., Thorpe, W. V. & Vallance, D. K.) 193
Liver glycogen of the alloxan-diabetic rat, effect of salicylate on (Smith, M. J. H., Meade, B. W. & Bornstein, J.) 18
Liver glycogen, rabbit, occurrence of fructose in (Peat, S., Roberts, P. J. P. & Whelan, W. J.) xvii
Liver, goat, β-carotene in (Chanda, R. & Owen, E. C.) iv
Liver homogenates, rat, metabolism of pregnane-3α:20α-diol by (Grant, J. K.) 358
Liver in choline deficiency, effects of cold environment on deposition of fat in (Sellers, E. A. & You, R. W.) 573
Liver, mouse, homogenates of, fractionation of β-glucuronidase activity of (Walker, P. G.) 223
Liver of bhakur fish and pahuna fish, fats of (Pathak, S. P. & Agarwal, C. V.) 264
Liver of the hatching chick, iron in (Ramsay, W. N. M.) 289
Liver, phosphatases of, chromatography and detection of (Giri, K. V., Prasad, A. L. N., Gowri Devi, S. & Sri Ram, J.) 123
Liver, rat, amine oxidase activity of, in riboflavin deficiency (Hawkins, J.) 399
Liver, rat, assay of β-glucuronidase in (Walker, P. G. & Levvy, G. A.) xx
Liver slices, activation of Schradan as an anticholinesterase in (Gardiner, J. E. & Kilby, B. A.) 84
Liver tubercles, effect on 7-hydrosteroids of guinea pig intestine (Glover, M., Glover, J. & Morton, R. A.) 1
Liver weight, increase produced by administration of ACTH to young guinea pigs (Bland, M. N., Constable, B. J., Harris, L. J. & Hughes, R. E.) xxxv; (Hughes, R. E., Harris, L. J., Constable, B. J. & Bland, M. N.) xxxv
Lobsters, non-protein nitrogen fraction of the flesh of (Fraser, D., Kermack, W. O., Lees, H. & Wood, J. D.) xxxii
Lonicera japonica (honeysuckle), carotenoids of (Goodwin, T. W.) 458
Lycopene in berries of *Lonicera japonica* (Goodwin, T. W.) 458
Lysine, modifications in microbiological assay of (De Bouk, K. R.) 567

Macromolecules, polarization of the fluorescence of (Weber, G.) 145, 155
Magnesium in ash of pigment fractions from mammalian eyes (Bowness, J. M., Morton, R. A., Shakir, M. H. & Stubbs A. L.) 521
Magnesium in cow's milk, effect of thyroxine and thiouracil on (Chanda, R., McNaught, M. L. & Owen, E. C.) 543

Maltosaccharides, action of amylase on (Roberts, P. J. P. & Whelan, W. J.) xviii
Maltozymase and enzyme adaptation (Mandelstam, J. & Yudkin, J.) 686
Maltulose in rabbit liver glycogen (Peat, S., Roberts, P. J. P. & Whelan, W. J.) xvii
Mammary gland, biological fractionation of hydrogen isotopes in (Glascock, R. F. & Duncombe, W. G.) xl
Manganese, distribution in eye tissues (Fore, H. & Morton, R. A.) 603
Manganese, distribution in rabbit tissues (Fore, H. & Morton, R. A.) 600
Manganese in bone (Fore, H. & Morton, R. A.) 598
Manganese, microdetermination by catalytic method (Fore, H. & Morton, R. A.) 594
Mannose in mycelium of *Penicillium griseofulvum* (Smithies, W. R.) 259
Mares, pregnant, non-ketonic neutral steroids from urine of (Brooks, R. V., Klyne, W., Miller, E. & Paterson, J. Y. F.) 694
'Mass action' theory of enzyme adaptation (Mandelstam, J.) 674
'Mass action' theory of enzyme adaptation, galactozymase production by yeast in relation to (Mandelstam, J. & Yudkin, J.) 686
§Mechanism of fat absorption (Frazer, A. C.) xiii
Melanin fractions from eye tissues, occurrence of metals in (Bowness, J. M., Morton, R. A., Shakir, M. H. & Stubbs, A. L.) 521; (Bowness, J. M. & Morton, R. A.) 530
Membrane of yeast cell wall (Northcote, D. H. & Horne, R. W.) 232
Mercury, complexes with amino-acids (Perkins, D. J.) 487
Metal complexes of amino-acids (Perkins, D. J.) 487
Methionine, synthesis from homocysteine by *Escherichia coli* (Gibson, F. & Woods, D. D.) v
Methyl xanthines, metabolites in human urine (Johnson, E. A.) 133
2-Methylbenzoxazoles, metabolism in the rabbit (Bray, H. G., Clowes, R. C. & Thorpe, W. V.) 70
β-Methylcholine, chromatography of (Whittaker, V. P. & Wijesundera, S.) 348
Methylene blue, reduction by *Proactinomyces opacus* (Webley, D. M. & De Kock, P. C.) 371
α-Methylene-γ-aminobutyric acid, possible occurrence in groundnut plant (Done, J. & Fowden, L.) 451
γ-Methyleneglutamic acid from groundnut plant (Done, J. & Fowden, L.) 451
γ-Methyleneglutamine from groundnut plant (Done, J. & Fowden, L.) 451
Methylethylacetic acid in *Ascaris lumbricoides* (Moyle, V. & Baldwin, E.) 504
γ-Methylglutamic acid, synthesis of (Done, J. & Fowden, L.) 451
Methyluric acids in human urine (Johnson, E. A.) 133
Metmyoglobin, oxidation of myoglobin to, by oxygen (George, P. & Stratmann, C. J.) 103, 418
Microbiological estimation of lysine, valine and phenylalanine in licheniformin (De Bouk, K. R.) 567
Micrococcus pyogenes var. see *Staphylococcus aureus*
*Micro-electrophoresis apparatus (Baron, D. N.) xii
*Micro-fungi, cup-plate assay of enzymes and its application to the study of (Dingle, J., Reid, W. W. & Solomons, G. L.) xlvii
Micro-organisms, ammonia as intermediate in nitrogen metabolism of (McDonald, I. W.) 86
Micro-organisms, aromatic ring-splitting, homogentisic acid an intermediate in the metabolism of tyrosine by (Jones, J. D., Smith, B. S. W. & Evans, W. C.) xi
Micro-organisms, biochemistry of (Birkinshaw, J. H.) 271
Micro-organisms of rumen, action on amino-acids (El-Shazly, K.) 647
Micro-organisms, soil, oxidation of pyruvic acid oxime by (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
Milk, cow's, tocopherols and vitamin E in (Brown, F.) 237
Milk, effect of thyroxine and thiouracil on the composition of (Chanda, R., McNaught, M. L. & Owen, E. C.) 543
Milk, estimation of acetone bodies in (Thin, C. & Robertson, A.) 218
§Milk fat, biosynthesis in the ruminant (Folley, S. J.) xv
Milk fat of grey Atlantic seal, fatty acid composition of (Meara, M. L.) 190
Milk of cows, cocarboxylase and protein-bound aneurin in relation to phosphatase in (Chanda, R. & Owen, E. C.) xix
Milk of cows, partition of phosphorus in relation to phosphatase in (Chanda, R. & Owen, E. C.) iii
Milk, sow's, vitamin B_{12}-binding factor in (Gregory, M. E., Ford, J. E. & Kon, S. K.) xxix
Milk, xanthine oxidase of (Morell, D. B.) 657
Molecular weight and toxicity of dextran sulphate (Ricketts, C. R.) 129
Molecular weight of proteins, determination of (Charlwood, P. A.) 113
Molluscs, marine, arylsulphatase activity in (Dodgson, K. S., Lewis, J. I. M. & Spencer, B.) xlii
Monohydroxyindoles, formation from dihydroxyphenylalanines (Harley-Mason, J. & Cromartie, R. I. T.) xxiv
Mononucleotides from sap and chloroplast nucleic acids (Parker, G.) 389
Mucoids, blood-group, action of dilute alkali on, and their colorimetric determination (Aminoff, D., Morgan, W. T. J. & Watkins, W. M.) 379
Mucoids of cornea (Woodin, A. M.) 319
Muconic acids, excretion from rabbits receiving benzene (Parke, D. V. & Williams, R. T.) 339
Muconic acids, isomeric, determination of (Parke, D. V. & Williams, R. T.) 339
Mucopolysaccharide of the cornea (Woodin, A. M.) 319
Muscle, heart, porphyrin in (Falk, J. E. & Rimington, C.) 36
Muscle, isolation of myofibrils from (Perry, S. V.) 495
Muscle, rat, action on 2:4-dinitrophenol (Parker, V. H.) 363
Muscles, ^{14}C in, after injection of ^{14}C-labelled bicarbonate (Kornberg, H. L., Davies, R. E. & Wood, D. R.) 351
Mustard, nitrogen, effect on the level of blood serum protein-bound carbohydrate (polysaccharide) in patients with neoplasms (Keyser, J. W.) xlvi
Mycelium of *Penicillium griseofulvum*, chemical composition of (Smithies, W. R.) 259
Mycobacteria, arylsulphatase from (Whitehead, J. E. M., Morrison, A. R. & Young, L.) 585
Mycobacterium phlei, activity of licheniformins A, B and C against (Callow, R. K. & Work, T. S.) 558
Myofibril, isolated, bound nucleotide of (Perry, S. V.) 495
Myoglobin, oxidation to metmyoglobin by oxygen (George, P. & Stratmann, C. J.) 103, 418

Naphthalenesulphonyl derivative of proteins, fluorescence measurement of (Weber, G.) 155
1-Naphthylsulphate, potassium, as substrate in test for bacterial arylsulphatase (Whitehead, J. E. M., Morrison, A. R. & Young, L.) 585
Neoplasms, effect of nitrogen mustard or X- or radium-irradiation treatment on the level of blood serum protein-bound carbohydrate (polysaccharide) in patients with (Keyser, J. W.) xlvi
Nerve crush, concentration of total nucleic acid after (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 482
Nerve section, concentration of total nucleic acid after (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 482

Nerve tissue, determination of deoxypentosenucleic acid and pentosenucleic acid in (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 470
Nervous system, central, pseudo-cholinesterase activity in (Ord, M. G. & Thompson, R. H. S.) 245
Nervous system, determination of deoxypentosenucleic acid and pentosenucleic acid in tissue from, by ultraviolet absorption (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 480
Nicotinamide, deamidation of (Hughes, D. E. & Williamson, D. H.) 330
Nicotinic acid, precursor of cozymase (Hughes, D. E. & Williamson, D. H.) 330
Nicotinic acid, synthesis of cozymase from, by *Lactobacillus arabinosus* 17–5 (Hughes, D. E. & Williamson, D. H.) 330
Nicotinic acids, halogen-substituted, inhibition of cozymase synthesis in bacteria by (Hughes, D. E.) xxii
Nitrate, reactivation of glutaminase by (Hughes, D. E. & Williamson, D. H.) 45
Nitrification of oximes in soil (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
Nitrogen fractions, non-protein, of the flesh of lobsters and crabs (Fraser, D., Kermack, W. O., Lees, H. & Wood, J. D.) xxxii
Nitrogen metabolism in *Phycomyces blakesleeanus* (Goodwin, T. W. & Willmer, J. S.) 213
Nitrogen mustard, effect on the level of blood serum protein-bound carbohydrate (polysaccharide) in patients with neoplasms (Keyser, J. W.) xlvi
Nitrogen mustard *see* Di-2-chloroethylmethylamine
Nitrogenous compounds, effect on the respiration of the Rhizobia (Burris, R. H. & Wilson, P. W.) 90
Nocardia opaca, metabolism of some saturated aliphatic hydrocarbons, alcohols and fatty acids by (Webley, D. M. & De Kock, P. C.) 371
Non-protein nitrogen of rumen constituents (McDonald, I. W.) 86
Notatin, behaviour with flavin-adenine nucleotide (Morell, D. B.) 657
Nu 683 *see* Dimethylcarbamate of (2-hydroxy-5-phenylbenzyl)-trimethylammonium bromide
Nucleic acid in dog brain and cat sciatic nerve, determination of (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 470
Nucleic acid, phosphorus of (Holden, M.) 433
Nucleic acids (deoxypentose- and pentose-) in nerve (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 482
Nucleic acids in nervous tissue (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 470
Nucleotide, bound, of the isolated myofibril (Perry, S. V.) 495

Oestrogens, urinary, paper chromatography of (Boscott, R. J.) xlv
Oleic acid, adaptation of *Bacillus subtilis* to (Laser, H.) 57
Omasum, sheep, metabolism of short-chain fatty acids by (Pennington, R. J.) 251
Ovalbumin, fluorescent conjugates of (Weber, G.) 155
Ovalbumin, serum, complexes with nitrogen mustard (Watkins, W. M. & Wormall, A.) 577
Oxaloacetic acid oxime, nitrification in soil (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
Oxidase activity, amine, of rat liver in riboflavin deficiency (Hawkins, J.) 399
Oxidase, xanthine, reduction of cytochrome *c* by (Morell, D. B.) 666
§Oxidation, enzymic, of fatty acids (Lehninger, A. L.) xv
Oxidation of acetate in baker's yeast (Krebs, H. A., Gurin, S. & Eggleston, L. V.) 614
Oxime, pyruvic acid, oxidation by soil micro-organisms (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
Oxygen, molecular, oxidation of myoglobin to metmyoglobin by (George, P. & Stratmann, C. J.) 103, 418

Pahuna fish, fats of liver of (Pathak, S. P. & Agarwal, C. V.) 264
Palitantin, metabolic product of *Penicillium palitans* Westling (Birkinshaw, J. H.) 271
Palitantin, structural relationship with frequentin (Curtis, P. J. & Duncanson, L. A.) 276
Papain, effect of chloral hydrate upon the activity of (Bray, H. G., Thorpe, W. V. & Vallance, D. K.) 193
Paper chromatography, identification and separation of enzymes by (Giri, K. V., Prasad, A. L. N., Gowri Devi, S. & Sri Ram, J.) 123
*Paper chromatography of steroids, improvements and precautions in methods for (Bush, I. E.) xxviii
Paper electrophoresis of proteins, photoelectric scanning device for (Latner, A. L., Braithwaite, F. & Nunn, R. A.) x
Paper, filter, apparatus for electrophoresis on (Latner, A. L.) xii
Paper, filter, photometry of proteins separated by electrophoresis in (Crook, E. M., Harris, H. & Warren, F. L.) xxvi
Paper, ionophoresis of sugars on (Consden, R. & Stanier, W. M.) xix
Partition chromatography, gas-liquid, separation and identification of volatile bases by (James, A. T.) viii,* xxvii
Patella vulgata, purification of the arylsulphatase of (Dodgson, K. S. & Spencer, B.) xliii
Penicillium frequentans, isolation of frequentin from (Birkinshaw, J. H.) 271
Penicillium griseofulvum, chemical composition of mycelium of (Smithies, W. R.) 259
Penicillium palitans Westling, metabolic product of (Birkinshaw, J. H.) 271
Pentosenucleic acid, determination by ultraviolet absorption (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 470, 480
Pentosenucleic acid in retinas and rod outer segments (Collins, F. D., Love, R. M. & Morton, R. A.) 669
Peptides, γ-glutamyl and α-amino-acyl, enzymic transpeptidation reactions involving (Hanes, C. S., Hird, F. J. R. & Isherwood, F. A.) 25
Perch, copper and zinc in the eyes of (Bowness, J. M. & Morton, R. A.) 530
Perchloric acid, reaction with tryptophan in serum (Keyser, J. W.) xlvi
Permeability of yeast to acids, effect of cooling on (Krebs, H. A., Gurin, S. & Eggleston, L. V.) 614
Peroxides, reactions of, with haematins (Keilin, J.) 443
Petroliferous formations, anaerobic metabolism of *Vibrio desulfuricans* in (Mackenzie, K.) xxiv
pH, effect on the adsorption of dyes on serum albumin (Laurence, D. J. R.) 168
pH, intracellular, metabolic control by (Caldwell, P. C. & Harris, E. J.) xli
Phenolic acids, urinary, paper chromatography of (Boscott, R. J.) xlv
Phenolic ethereal sulphates, arylsulphatase activity of takadiastase towards (Robinson, D., Smith, J. N., Spencer, B. & Williams, R. T.) 202
Phenolphthalein disulphate, potassium, use as substrate in testing for arylsulphatase in bacteria (Whitehead, J. E. M., Morrison, A. R. & Young, L.) 585
Phenolphthaleins as inhibitors of glutaminase (Hughes, D. E. & Williamson, D. H.) 45

Phenols, spectrophotometric or colorimetric determination of (Robinson, D., Smith, J. N., Spencer, B. & Williams, R. T.) 202
Phenolsulphatase (arylsulphatase), bacterial, use of potassium phenolphthalein disulphate in testing for (Whitehead, J. E. M., Morrison, A. R. & Young, L.) 585
Phenylalanine, effects of high-voltage cathode rays on aqueous solutions of (Proctor, B. E. & Bhatia, D. S.) 535
Phenylalanine, modifications in microbiological assay of (De Bouk, K. R.) 567
Phenylalanines, dihydroxy-, formation of monohydroxyindoles from (Harley-Mason, J. & Cromartie, R. I. T.) xxiv
2-Phenylbenzoxazoles, metabolism in the rabbit (Bray, H. G., Clowes, R. C. & Thorpe, W. V.) 70
Phenylpyruvic acid oxime, nitrification in soil (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
Phleum pratense, timothy grass, tocopherols and vitamin E in (Brown, F.) 237
Phosphatase in cow's milk, effect of thyroxine and thiouracil on (Chanda, R., McNaught, M. L. & Owen, E. C.) 543
Phosphatase, partition of phosphorus in relation to, in colostrum and milk of cows (Chanda, R. & Owen, E. C.) iii
Phosphatase, relation of cocarboxylase and protein-bound aneurin to, in colostrum and milk of cows (Chanda, R. & Owen, E. C.) xix
Phosphatases of kidney, chromatography of; techniques for detection of (Giri, K. V., Prasad, A. L. N., Gowri Devi, S. & Sri Ram, J.) 123
Phosphatases of liver, chromatography of; techniques for detection of (Giri, K. V., Prasad, A. L. N., Gowri Devi, S. & Sri Ram, J.) 123
Phosphatases of serum, chromatography of; techniques for detection of (Giri, K. V., Prasad, A. L. N., Gowri Devi, S. & Sri Ram, J.) 123
Phosphate, pyridoxal, as coenzyme of histaminase (Sinclair, H. M.) x
Phosphatidylcholine, counter-current distribution of (Lovern, J. A.) 464
Phosphatidylethanolamine, counter-current distribution of (Lovern, J. A.) 464
Phosphatidylserine, counter-current distribution of (Lovern, J. A.) 464
Phosphocreatine, determination of, in animal tissues (Ennor, A. H. & Rosenberg, H.) 606
Phosphocreatine, distribution of, in animal tissues (Ennor, A. H. & Rosenberg, H.) 606
Phospholipin in retinas and rod outer segments (Collins, F. D., Love, R. M. & Morton, R. A.) 669
Phospholipin-splitting enzyme, liberation of phosphorus from fibre and chloroplast fractions by (Holden, M.) 433
Phospholipins, separation by counter-current distributions (Lovern, J. A.) 464
Phosphoprotein in dog brain and cat sciatic nerve, determination of (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 470
Phosphoprotein in nerve (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 482
Phosphoprotein in retinas and rod outer segments (Collins, F. D., Love, R. M. & Morton, R. A.) 669
Phosphoric acid, inhibition of erythrocyte cholinesterase by tri-esters of (Aldridge, W. N. & Davison, A. N.) 62
Phosphorus compounds in leaf tissue (Holden, M.) 433
Phosphorus compounds in retinas and rod outer segments (Collins, F. D., Love, R. M. & Morton, R. A.) 669
Phosphorus compounds, methods of estimation of (Holden, M.) 433
Phosphorus distribution in normal, sectioned and crushed nerve tissue (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 482
Phosphorus insecticides, biochemistry of (Gardiner, J. E. & Kilby, B. A.) 78
Phosphorus of muscle (Perry, S. V.) 495
Phosphorus, partition in relation to phosphatase in colostrum and milk of cows (Chanda, R. & Owen, E. C.) iii
Phosphorylase of gram, chromatography of; techniques for detection of (Giri, K. V., Prasad, A. L. N., Gowri Devi, S. & Sri Ram, J.) 123
Phosphorylase, potato, action pattern of (Bailey, J. M. & Whelan, W. J.) xxxiii
Phosphorylase, separation of (Gilbert, G. A. & Patrick, A. D.) 186
Phosvitin, immunological and serological properties of (Francis, G. E.) 715
Photoelectric scanning device for electrophoresis of proteins on filter paper (Latner, A. L., Braithwaite, F. & Nunn, R. A.) x
*Photometer, flame, for routine biochemical use (Warren, R. L.) xii
*Photometer, flame, routine estimation of sodium and potassium in biological fluids using (Moore, A. E.) xii
Photometry of proteins separated by electrophoresis in filter paper (Crook, E. M., Harris, H. & Warren, F. L.) xxvi
Phycomyces blakesleeanus, carotene synthesis by some naturally occurring mutants of (Goodwin, T. W. & Griffiths, L. A.) xxxiii
Phycomyces blakesleeanus, carotene synthesis in, effect of pH and salt concentration of media on (Goodwin, T. W. & Willmer, J. S.) 213
Phycomyces nitens, carotene synthesis by some naturally occurring mutants of (Goodwin, T. W. & Griffiths, L. A.) xxxiii
Phytofluene in berries of *Lonicera japonica* (Goodwin, T. W.) 458
*Picric acid as a reagent for the isolation and estimation of hexone bases in protein hydrolysates (Robson, W. & Selim, A. S. M.) xxvi
Plasma fibrinogen, determination of, by the clot-weight method (Ingram, G. I. C.) 583
Plasma, human blood, effect of cortisone and adrenocorticotropic hormone on the dehydroascorbic acid of (Stewart, C. P., Horn, D. & Robson, J. S.) xx
Plasma proteins, rabbit, incorporation of glycine into (Dovey, A., Holloway, R. C. & McFarlane, A. S.) xxvi
Plasmalogens, construction of (Lovern, J. A.) 464
Polarization of the fluorescence of macromolecules (Weber, G.) 145, 155
Polyphenols in cacao (Forsyth, W. G. C.) 511
Polyphenols, urinary, paper chromatography of (Boscott, R. J.) xlv
Polysaccharide, blood serum, in patients with neoplasms, effect of nitrogen mustard or X- or radium-irradiation treatment on the level of (Keyser, J. W.) xlvi
Polysaccharide in *Penicillium griseofulvum* (Smithies, W. R.) 259
Polysaccharide-protein complexes, ionophoresis on paper of (Consden, R. & Stanier, W. M.) xix
Polysaccharides of yeast cell wall (Northcote, D. H. & Horne, R. W.) 232
Porphyria, congenital, study of (Kench, J. E. & Papastamatio, C. S.) xli
Porphyrin *a*, isolation from heart muscle (Falk, J. E. & Rimington, C.) 36
*Potassium in biological fluids, routine estimation by a flame photometer (Moore, A. E.) xii
Potassium in cow's milk, effect of thyroxine and thiouracil on (Chanda, R., McNaught, M. L. & Owen, E. C.) 543
Potato concerned in the synthesis of starch, enzymes of (Gilbert, G. A. & Patrick, A. D.) 181, 186
Potato phosphorylase, action pattern of (Bailey, J. M. & Whelan, W. J.) xxxiii
Pregnan-3α-ol-20-one, formation from pregnanediol by rat-liver homogenate (Grant, J. K.) 358

Pregnane-3α:20α-diol in urine during the follicular phase of the menstrual cycle (Brooksbank, B. W. L. & Haslewood, G. A. D.) 286
Pregnane-3α:20α-diol, metabolism by rat-liver homogenates (Grant, J. K.) 358
5α-Pregnane-3β:20α-diol from pregnant mares' urine (Brooks, R. V., Klyne, W., Miller, E. & Paterson, J. Y. F.) 694
5α-Pregnane-3β:20β-diol from pregnant mares' urine (Brooks, R. V., Klyne, W., Miller, E. & Paterson, J. Y. F.) 694
'Pregnanediol-like glucuronide' fraction from the urine of women in the follicular phase of the menstrual cycle (Brooksbank, B. W. L. & Haslewood, G. A. D.) 286
Proactinomyces opacus, metabolism of some saturated aliphatic hydrocarbons, alcohols and fatty acids by (Webley, D. M. & De Kock, P. C.) 371
Progesterone, metabolism *in vitro* (Grant, J. K.) 358
Proline, reduction by the micro-organisms of sheep rumen (El-Shazly, K.) 647
*iso*Propanol, estimation of (Thin, C. & Robertson, A.) 218
Propionic acid in *Ascaris lumbricoides* (Moyle, V. & Baldwin, E.) 504
Propionic acid, metabolism by rumen epithelium tissue (Pennington, R. J.) 251
Propionylcholine, chromatography of (Whittaker, V. P. & Wijesundera, S.) 348
Protamine zinc insulin, estimation of protamine and zinc in (Robinson, F. A. & Fehr, K. L. A.) 298
Protein-bound aneurin in relation to phosphatase in colostrum and milk of cows (Chanda, R. & Owen, E. C.) xix
Protein-bound carbohydrate, blood serum, in patients with neoplasms, effect of nitrogen mustard or X- or radium-irradiation treatment on the level of (Keyser, J. W.) xlvi
Protein, degradation in the rumen of the sheep (El-Shazly, K.) 640, 647
Protein derivatives, fluorescent measurement of (Weber, G.) 155
Protein, dietary, effect on the hepatic arginase of the rat (Mandelstam, J. & Yudkin, J.) 681
*Protein hydrolysates, picric acid as a reagent for the isolation and estimation of hexone bases in (Robson, W. & Selim, A. S. M.) xxvi
Protein in cow's milk, effect of thyroxine and thiouracil on (Chanda, R., McNaught, M. L. & Owen, E. C.) 543
Protein in *Penicillium griseofulvum* (Smithies, W. R.) 259
Protein of yeast cell wall (Northcote, D. H. & Horne, R. W.) 232
Protein-polysaccharide complexes, ionophoresis on paper of (Consden, R. & Stanier, W. M.) xix
Protein solutions, use of the Gouy diffusiometer with (Creeth, J. M.) 10
Proteins of *Arachis hypogaea* (Thomson, R. H. K.) 118
Proteins of mucoid of cornea (Woodin, A. M.) 319
Proteins, photoelectric scanning device for filter paper electrophoresis of (Latner, A. L., Braithwaite, F. & Nunn, R. A.) x
Proteins, rabbit plasma, incorporation of glycine into (Dovey, A., Holloway, R. C. & McFarlane, A. S.) xxvi
Proteins, role of ammonia in ruminal digestion of (McDonald, I. W.) 86
Proteins separated by electrophoresis in filter paper, photometry of (Crooke, E. M., Harris, H. & Warren, F. L.) xxvi
Proteins, serum, complexes with nitrogen mustard (Watkins, W. M. & Wormall, A.) 577
Proteins, serum, visual matching technique for paper electrophoresis of (Latner, A. L. & Richardson, M. W.) xxxi
Proteins treated with di-2-chloroethylmethylamine, immunological properties of (Watkins, W. M. & Wormall, A.) 577
Protohaematin, reactions of, with peroxides (Keilin, J.) 443
Provitamin D_3 in tissues (Glover, M., Glover, J. & Morton, R. A.) 1
Pseudo-cholinesterase activity in the central nervous system (Ord, M. G. & Thompson, R. H. S.) 245
Pseudo-cholinesterase, determination of the molar concentration in serum (Myers, D. K.) 303
Pseudolipotropic action of cold (Sellers, E. A. & You, R. W.) 573
Pterine oxidase, probable identity with xanthine oxidase (Morell, D. B.) 657
Purines from sap and chloroplast nucleic acids (Parker, G.) 389
Pyridine-haematin compounds, reactions with peroxides (Keilin, J.) 443
Pyridine homologues, separation and identification by gas-liquid partition chromatography (James, A. T.) viii
Pyridoxal phosphate as coenzyme of histaminase (Sinclair, H. M.) x
§Pyridoxine, relation of essential fatty acids to (Sinclair, H. M.) xvi
Pyrimidines from sap and chloroplast nucleic acids (Parker, G.) 389
Pyruvate level of rat blood, effect of vitamin A deficiency on (Goodwin, T. W. & Williams, G. R.) 708
Pyruvate, oxidation by *Achromobacter* (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
Pyruvic acid oxime, isolation of bacteria from soil perfused with (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 284
Pyruvic acid oxime, nitrification in soil (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
Pyruvic acid oxime, oxidation by soil micro-organisms (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278

Q-enzyme action, minimum chain length for (Bailey, J. M., Peat, S. & Whelan, W. J.) xxxiv
Q-enzyme, separation and crystallization of (Gilbert, G. A. & Patrick, A. D.) 181

Rabbit-liver glycogen, occurrence of fructose in (Peat, S., Roberts, P. J. P. & Whelan, W. J.) xvii
Rabbit plasma proteins, incorporation of glycine into (Dovey, A., Holloway, R. C. & McFarlane, A. S.) xxvi
Rabbit skin, collagen formation in (Harkness, R. D. & Neuberger, A.) xxii
Rabbit tissues, distribution of manganese in (Fore, H. & Morton, R. A.) 600
Rabbits, copper and zinc in the eyes of (Bowness, J. M., Morton, R. A., Shakir, M. H. & Stubbs, A. L.) 521
Rabbits receiving benzene, muconic acids excreted by (Parke, D. V. & Williams, R. T.) 339
Radium-irradiation treatment, effect on the level of blood serum protein-bound carbohydrate (polysaccharide) in patients with neoplasms (Keyser, J. W.) xlvi
Rana temporaria, European frog, bile salts of (Haslewood, G. A. D.) 139
Ranol, pentahydric alcohol from frog bile ($C_{27-28}H_{43-45}(OH)_5$) (Haslewood, G. A. D.) 139
Rat, alloxan-diabetic, effect of salicylate on glycosuria, blood glucose and liver glycogen of (Smith, M. J. H., Meade, B. W. & Bornstein, J.) 18
Rat liver, amine oxidase activity of, in riboflavin deficiency (Hawkins, J.) 399
Rat liver, assay of β-glucuronidase in (Walker, P. G. & Levvy, G. A.) xx

Rats administered a massive dose of calciferol, vitamin D balance experiments in (Cruickshank, E. M. & Kodicek, E.) xlii
α-Rays, formation of hydrogen peroxide by (Dale, W. M., Davies, J. V., Gilbert, C. W., Keene, J. P. & Gray, L. H.) 268
Reduction of 2:4-dinitrophenol by rat tissues (Grant, J. K.) 363
Regeneration of crushed nerve (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 482
Regeneration of tissue, synthesis of deoxyribonucleic acid from ribonucleic acid during (Marrian, D. H.) i
Resins, synthetic ion-exchange, displacement chromatography on (Partridge, S. M. & Brimley, R. C.) 628
Respiration of the Rhizobia, effect of haemoglobin and other nitrogenous compounds on (Burris, R. H. & Wilson, P. W.) 90
Reticulum, sheep, metabolism of short-chain fatty acids by (Pennington, R. J.) 251
Retina, chemical analysis of (Collins, F. D., Love, R. M. & Morton, R. A.) 669
Retinal fractions, phosphorus distribution in (Collins, F. D., Love, R. M. & Morton, R. A.) 669
Retinas, cattle, separation of rod outer segments from (Collins, F. D., Love, R. M. & Morton, R. A.) 292
Rhizobia, effect of haemoglobin and other nitrogenous compounds on the respiration of (Burris, R. H. & Wilson, P. W.) 90
Rhizobium leguminosarum, respiration rate of washed cells of (Burris, R. H. & Wilson, P. W.) 90
Rhizobium trifolii, uptake of oxygen by, in the presence of glycine (Burris, R. H. & Wilson, P. W.) 90
Rhodopsin, preparation of (Collins, F. D., Love, R. M. & Morton, R. A.) 292
Rhodopsin, studies in (Collins, F. D., Love, R. M. & Morton, R. A.) 292, 669
Ribitol, occurrence in honeydew from coccids and in plant saps (Hackman, R. H. & Trikojus, V. M.) 653
Riboflavin deficiency, amine oxidase activity of rat liver in (Hawkins, J.) 399
Riboflavin in cow's milk, effect of thyroxine and thiouracil on (Chanda, R., McNaught, M. L. & Owen, E. C.) 543
Ribonuclease, liberation of phosphorus from fibre and chloroplast fractions by (Holden, M.) 433
Ribonucleic acid in tobacco-leaf extracts, breakdown of (Parker, G.) 389
Ribonucleic acid metabolism, influence of energy intake on (Munro, H. N., Naismith, D. J. & Wikramanayake, T. W.) vii
Ribonucleic acid, phosphorus of (Holden, M.) 433
Ribonucleic acid, synthesis of deoxyribonucleic acid from, during tissue regeneration (Marrian, D. H.) i
Ribose derivatives of nicotinamide, cozymase synthesis by (Hughes, D. E. & Williamson, D. H.) 330
Rice, chromatography of amylases from (Giri, K. V., Prasad, A. L. N., Gowri Devi, S. & Sri Ram, J.) 123
Ring-splitting micro-organism, aromatic, homogentisic acid an intermediate in the metabolism of tyrosine by (Jones, J. D., Smith, B. S. W. & Evans, W. C.) xi
Rod outer segments, separation from cattle retinas (Collins, F. D., Love, R. M. & Morton, R. A.) 292
Root-nodule bacteria, effect of amino-acids on the respiration of (Burris, R. H. & Wilson, P. W.) 90
Rumen, ammonia as intermediate in nitrogen metabolism of (McDonald, I. W.) 86
Rumen contents, estimation of acetone bodies in (Thin, C. & Robertson, A.) 218
Rumen epithelium, metabolism of fatty acids by, in the sheep (Pennington, R. J.) 251
Rumen, sheep, degradation of protein in (El-Shazly, K.) 640, 647
Rumen, sheep, fatty acids in (El-Shazly, K.) 640
Ruminal digestion of protein, role of ammonia in (McDonald, I. W.) 86
§Ruminant, biosynthesis of milk fat in (Folley, S. J.) xv
Ruminant, digestion of (Pennington, R. J.) 251
§Ruminant, fat metabolism in (Folley, S. J.) xv

Salicylaldehyde, use for the estimation of acetone bodies (Thin, C. & Robertson, A.) 218
Salicylate, effect on glycosuria, blood glucose and liver glycogen of the alloxan-diabetic rat (Smith, M. J. H., Meade, B. W. & Bornstein, J.) 18
Salivary α-amylase, action pattern of (Roberts, P. J. P. & Whelan, W. J.) xviii
Salmine, chromatography and retention analysis on paper (Robinson, F. A. & Fehr, K. L. A.) 298
Salmonellae, arylsulphatase from (Whitehead, J. E. M., Morrison, A. R. & Young, L.) 585
Sap, breakdown of ribonucleic acids of (Parker, G.) 389
Saps of plants, ribitol in (Hackman, R. H. & Trikojus, V. M.) 653
Scanning device, photoelectric, for filter paper electrophoresis of proteins (Latner, A. L., Braithwaite, F. & Nunn, R. A.) x
Schradan *see* Bis(dimethylamino)phosphonous anhydride
Sciatic nerve, cat, phosphorus in (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 470
Seal (grey Atlantic, *Halichoesus grypus*), fatty acid composition of milk fat of (Meara, M. L.) 190
Seasonal changes in the carbohydrates of the Jerusalem artichoke tuber (Bacon, J. S. D. & Loxley, R.) 208
Sedimentation of fumarase (Massey, V.) 490
Sedimentation of human albumins (Charlwood, P. A.) 113
Sedimentation of licheniformins A, B and C (Ogston, A. G.) 569
Segments, rod outer, separation from cattle retinas (Collins, F. D., Love, R. M. & Morton, R. A.) 292
Serine, separation from threonine by displacement chromatography (Partridge, S. M. & Brimley, R. C.) 628
Serological properties of phosvitin (Francis, G. E.) 715
Serum albumin, human, sedimentation and diffusion of (Charlwood, P. A.) 113
Serum albumin, retention analysis of (Robinson, F. A. & Fehr, K. L. A.) 298
Serum, bovine albumin, adsorption of dyes on, by a method of polarization of fluorescence (Laurence, D. J. R.) 168
Serum, determination of pseudo-cholinesterase in (Myers, D. K.) 303
Serum, phosphatases of, chromatography and detection of (Giri, K. V., Prasad, A. L. N., Gowri Devi, S. & Sri Ram, J.) 123
Serum protein-bound carbohydrate in patients with neoplasms, effect of nitrogen mustard or X- or radium-irradiation treatment on the level of (Keyser, J. W.) xlvi
Serum proteins and ovalbumin, complexes with nitrogen mustard (Watkins, W. M. & Wormall, A.) 577
Serum proteins, visual matching technique for paper electrophoresis of (Latner, A. L. & Richardson, M. W.) xxxi
Serum tryptophan-perchloric acid reaction (Keyser, J. W.) xlvi
Sheep, copper and zinc in the eyes of (Bowness, J. M., Morton, R. A., Shakir, M. H. & Stubbs, A. L.) 521
Sheep, degradation of protein in the rumen of (El-Shazly, K.) 640, 647
Sheep, metabolism of short-chain fatty acids in (Pennington, R. J.) 251
Skin, rabbit, collagen formation in (Harkness, R. D. & Neuberger, A.) xxii
*Sodium in biological fluids, routine estimation by a flame photometer (Moore, A. E.) xii

Sodium in cow's milk, effect of thyroxine and thiouracil on (Chanda, R., McNaught, M. L. & Owen, E. C.) 543
Soil micro-organisms, oxidation of pyruvic acid oxime by (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
Soil perfused with pyruvic acid oxime, isolation of bacteria from (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 284
Solubility analysis of crystalline ox-liver catalase (Brown, G. L.) 569
Soya-bean oil, tocopherols and vitamin E in (Brown, F.) 237
Sow's milk, vitamin B_{12}-binding factor in (Gregory, M. E., Ford, J. E. & Kon, S. K.) xxix
Sphingomyelin in ox brain (Lovern, J. A.) 464
Spleen, rat, action on 2:4-dinitrophenol (Parker, V. H.) 363
Staphylococcus aureus, formation of citrullin by, in a medium containing arginine (Lominski, I., Morrison, R. B. & Porter, I. A.) xvii
Starch, enzymes of the potato concerned in the synthesis of (Gilbert, G. A. & Patrick, A. D.) 181, 186
Stearic acid, adaptation of *Bacillus subtilis* to (Laser, H.) 57
Steroid polyhydric alcohol of frog bile (Haslewood, G. A. D.) 139
Steroids of pregnant mares' urine (Brooks, R. V., Klyne, W., Miller, E. & Paterson, J. Y. F.) 694
*Steroids, paper chromatography of, improvements and precautions in methods for (Bush, I. E.) xxviii
Steroids related to progesterone, metabolism *in vitro* (Grant, J. K.) 358
Strepogenin, microbiological assay with *Lactobacillus casei* (Kodicek, E. & Mistry, S. P.) 108
Streptococcus agalactiae, inhibitory substance for, in the gut of chickens (Berridge, N. J. & Barrett, J.) iii
Streptomycin, inhibition of carotenogenesis by (Goodwin, T. W. & Griffiths, L. A.) xxxiii
Strontium in fish and frog eyes (Bowness, J. M. & Morton, R. A.) 530
Succinylcholine, chromatography of (Whittaker, V. P. & Wijesundera, S.) 348
Sucrose, centrifugation in solution with density gradient (Collins, F. D., Love, R. M. & Morton, R. A.) 292
Sugar alcohols, filter-paper chromatography of (Hackman, R. H. & Trikojus, V. M.) 653
Sugars, ionophoresis on paper (Consden, R. & Stanier, W. M.) xix
Sulphadiazine, inhibitory action on nitrate formation from pyruvic acid oxime in soil (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
Sulphanilamide derivatives, inhibitory action on nitrate formation from pyruvic acid oxime in soil (Quastel, J. H., Scholefield, P. G. & Stevenson, J. W.) 278
Sulphatase, aryl-, activity in marine molluscs (Dodgson, K. S., Lewis, J. I. M. & Spencer, B.) xlii
Sulphatase, aryl-, of *Patella vulgata*, purification of (Dodgson, K. S. & Dodgson, B.) xliii
Sulphatase, aryl-, of rat tissues, assay of (Dodgson, K. S., Spencer, B. & Thomas, J.) i
Sulphatases, determination of sulphate in the study of (Dodgson, K. S. & Spencer, B.) xxix
Sulphate, conjugation of aminophenols and benzoxazoles with, in the rabbit (Bray, H. G., Clowes, R. C. & Thorpe, W. V.) 70
Sulphate, determination of, in the study of sulphatases (Dodgson, K. S. & Spencer, B.) xxix
Sulphate, dextran, as heparin analogue (Ricketts, C. R.) 129
Sulphate ester of cornea (Woodin, A. M.) 319
Sulphate ester of potassium phenolphthalein disulphate (Whitehead, J. E. M., Morrison, A. R. & Young, L.) 585
Sulphate, ranol, of frog bile (Haslewood, G. A. D.) 139
Sulphates, phenolic ethereal, arylsulphatase activity of takadiastase towards (Robinson, D., Smith, J. N., Spencer, B. & Williams, R. T.) 202
Sulphite, inhibition of arylsulphatase by (Robinson, D., Smith, J. N., Spencer, B. & Williams, R. T.) 202
Sulphophthaleins as inhibitors of glutaminase (Hughes, D. E. & Williamson, D. H.) 45
Sulphur, radioactive, uptake from L-cystine into brain tissue (Gaitonde, M. K. & Richter, D.) xxxix
Sweet potato, chromatography of amylases from (Giri, K.V., Prasad, A. L. N., Gowri Devi, S. & Sri Ram, J.) 123

Takadiastase, arylsulphatase activity of, towards some phenolic ethereal sulphates (Robinson, D., Smith, J. N., Spencer, B. & Williams, R. T.) 202
Teeth, fluorescence of (Hartles, R. L. & Leaver, A. G.) xxxvi
Tellurite, potassium, uptake by a sensitive strain of *Escherichia coli* (Cooper, P. D. & Few, A. V.) 552
Testa of cacao bean, oxidation of catechins by (Forsyth, W. G. C.) 516
Tetraethyl pyrophosphate as inhibitor of cholinesterase (Aldridge, W. N. & Davison, A. N.) 62
Thiocyanate, reactivation of glutaminase by (Hughes, D. E. & Williamson, D. H.) 45
Thiol compounds, effect on liberation of chloride ions from organic chloro compounds (Bray, H. G., Thorpe, W. V. & Vallance, D. K.) 193
Thiouracil, effect on the composition of milk (Chanda, R. & Owen, E. C.) 404; (Chanda, R., McNaught, M. L. & Owen, E. C.) 543
Threonine, separation from serine by displacement chromatography (Partridge, S. M. & Brimley, R. C.) 628
Thyroid disease, chemical tests in the study of (Tárnoky, A. L.) xliv
Thyroxine, effect on the composition of milk (Chanda, R. & Owen, E. C.) 404; (Chanda, R., McNaught, M. L. & Owen, E. C.) 543
Timothy grass, tocopherols and vitamin E in (Brown, F.) 237
Tissue, mechanical cutter for preparing small specimens of, with minimal disturbance of cell structure (McIlwain, H. & Buddle, H. L.) xxviii
Tobacco-leaf fibre, phosphorus of (Holden, M.) 433
Tobacco-leaf ribonucleic acid, enzymic breakdown of (Parker, G.) 389
Tocopherols, filter paper chromatography of (Brown, F.) 237
Tocopherols, presence in various oils, blood, milk and grasses (Brown, F.) 237
Toxicity of dextran sulphate and molecular weight (Ricketts, C. R.) 129
Transpeptidation reactions, enzymic, involving γ-glutamyl peptides and α-amino-acyl peptides (Hanes, C. S., Hird, F. J. R. & Isherwood, F. A.) 25
Tricarboxylic acid cycle in yeast (Krebs, H. A., Gurin, S. & Eggleston, L. V.) 614
Triphenyltetrazolium bromide, use of, for quantitative determination of dehydrogenases in cell suspensions (Fahmy, A. R. & Walsh, E. O'F.) 55
Tritium in biological material, combustion technique for the assay of (Glascock, R. F.) xxxix
Trout, copper and zinc in the eyes of (Bowness, J. M. & Morton, R. A.) 530
Trypsin-resistant lipid-protein, inositol-containing, in nervous system (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 470
Tryptophan dipeptides in bacterial nutrition (Marshall, J. H. & Woods, D. D.) ii
Tryptophan, effects of high-voltage cathode rays on aqueous solutions of (Proctor, B. E. & Bhatia, D. S.) 535
Tryptophan in protein of rhodopsin (Collins, F. D., Love, R. M. & Morton, R. A.) 292
Tryptophan, methods for the examination of urinary metabolites of (Dalgliesh, C. E.) xxviii

Tryptophan-perchloric acid reaction in serum (Keyser, J. W.) xlvi
Tuber, Jerusalem artichoke, seasonal changes in the carbohydrates of (Bacon, J. S. D. & Loxley, R.) 208
Tubercles, liver, effect on 7-dehydrosteroids of guinea pig intestine (Glover, M., Glover, J. & Morton, R. A.) 1
Turnover number of fumarase (Massey, V.) 490
Tyrosine, effects of high-voltage cathode rays on aqueous solutions of (Proctor, B. E. & Bhatia, D. S.) 535
Tyrosine in protein of rhodopsin (Collins, F. D., Love, R. M. & Morton, R. A.) 292
Tyrosine, metabolism by the aromatic ring-splitting micro-organisms, homogentisic acid an intermediate in (Jones, J. D., Smith, B. S. W. & Evans, W. C.) xi

Udder of the lactating goat, incorporation of [*carboxy*-^{14}C]-acetate in lactose and glycerol by (Popják, G., Glascock, R. F. & Folley, S. J.) xxv
Ultraviolet absorption, determination of deoxypentose-nucleic acid in tissue from the nervous system by (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 480
Uranediol and uranetriol from pregnant mares' urine (Brooks, R. V., Klyne, W., Miller, E. & Paterson, J. Y. F.) 694
Urea, ^{14}C in, after injection of ^{14}C-labelled bicarbonate (Kornberg, H. L., Davies, R. E. & Wood, D. R.) 351
Urease, effect of chloral hydrate upon the activity of (Bray, H. G., Thorpe, W. V. & Vallance, D. K.) 193
Uric acids, substituted in human urine (Johnson, E. A.) 133
Uridine-diphosphate-glucose, studies on (Paladini, A. C. & Leloir, L. F.) 426
Uridine-5′-phosphate from uridine-diphosphate-glucose (Paladini, A. C. & Leloir, L. F.) 426
Urinary metabolites of tryptophan, methods for examination of (Dalgliesh, C. E.) xxviii
Urine, coproporphyrin in, in lead poisoning (Kench, J. E., Lane, R. E. & Varley, H.) ix
Urine, estimation of acetone bodies in (Thin, C. & Robertson, A.) 218
Urine, excretion products of 2:4-dinitrophenol in (Parker, V. H.) 363
Urine, human, substituted uric acids in (Johnson, E. A.) 133
Urine, paper chromatography of the phenolic acids, polyphenols and oestrogens in (Boscott, R. J.) xlv
Urine, pregnant mares', non-ketonic neutral steroids from (Brooks, R. V., Klyne, W., Miller, E. & Paterson, J. Y. F.) 694
Urine, women's, isolation of androst-16-en-3α-ol from (Brooksbank, B. W. L. & Haslewood, G. A. D.) 286
Urocanic acid (β-4(5)-glyoxalinylacrylic acid), enzymic production from histidine (Hall, D. A.) 499
Urocanic acid, ultraviolet spectrum of (Hall, D. A.) 499
Urohaematin, reactions of, with peroxides (Keilin, J.) 443
Urorosein salts, derivation from di-3-indolylmethene (Harley-Mason, J. & Bu'lock, J. D.) 430

Vaccenic acid, adaptation of *Bacillus subtilis* to (Laser, H.) 57
Valeric acid in sheep rumen (El-Shazly, K.) 640
Valerylcholine, chromatography of (Whittaker, V. P. & Wijesundera, S.) 348
Valine, modifications in microbiological assay of (De Bouk, K. R.) 567
Vibrio desulfuricans, metabolism in anaerobic petroliferous formations (Mackenzie, K.) xxiv
Viscera, ^{14}C in, after injection of ^{14}C-labelled bicarbonate (Kornberg, H. L., Davies, R. E. & Wood, D. R.) 351
Viscera of bhakur fish, fats of (Pathak, S. P. & Agarwal, C. V.) 264
Vitamins, water-soluble, concentration in cow's milk (Chanda, R., McNaught, M. L. & Owen, E. C.) 543
Vitamin A content of milk, effect of thyroxine and thiouracil on (Chanda, R. & Owen, E. C.) 404
Vitamin A, distribution in the rat-liver cytoplasm (Collins, F. D.) xxxviii
Vitamin A, studies in (Goodwin, T. W. & Williams, G. R.) 708
Vitamins A_1 and A_2, distribution in amphibia (Love, R. M., Collins, F. D. & Morton, R. A.) xxxvii
Vitamin B_{12}-binding factor in sow's milk (Gregory, M. E., Ford, J. E. & Kon, S. K.) xxix
Vitamin B_{12}-like factors from calf faeces, some properties of (Ford, J. E. & Porter, J. W. G.) v; (Coates, M. E., Ford, J. E., Harrison, G. F., Kon, S. K. & Porter, J. W. G.) vi
Vitamin D balance experiments in rats given a massive dose of calciferol (Cruickshank, E. M. & Kodicek, E.) xlii
Vitamin D, studies on the analysis of (Green, J.) 144
Vitamin E, filter paper chromatography of (Brown, F.) 237
Vitamin E, presence in various oils, blood, milk and grasses (Brown, F.) 237

Wallago attu, fats of liver of (Pathak, S. P. & Agarwal, C. V.) 264
Wallerian degeneration of nerve (Logan, J. E., Mannell, W. A. & Rossiter, R. J.) 482
*Water, conductivity, preparation of (Jacobs, S.) xxvii
Whales, copper and zinc in the eyes of (Bowness, J. M., Morton, R. A., Shakir, M. H. & Stubbs, A. L.) 521
Wheat-germ oil, tocopherols and vitamin E in (Brown, F.) 237
Women's urine, isolation of androst-16-en-3α-ol from (Brooksbank, B. W. L. & Haslewood, G. A. D.) 286

X-irradiation treatment, effect on the level of blood serum protein-bound carbohydrate (polysaccharide) in patients with neoplasms (Keyser, J. W.) xlvi
Xanthine oxidase, absence from *Bacillus subtilis* and *Bacillus megatherium* (Spencer, R. E. J. & Powell, J. F.) 239
Xanthine oxidase of milk (Morell, D. B.) 657
Xanthine oxidase, reduction of cytochrome *c* by (Morell, D. B.) 666
Xanthines, methyl, metabolites in human urine (Johnson, E. A.) 133
Xanthophylls in fruit (Goodwin, T. W.) 458
Xanthoproteic test (Saunders, J. A.) xliv

Yeast, baker's, oxidation of acetate in (Krebs, H. A., Gurin, S. & Eggleston, L. V.) 614
Yeast cell wall, chemical composition and structure of (Northcote, D. H. & Horne, R. W.) 232
Yeast, protein from, isolation of amino-acids from hydrolysate of (Partridge, S. M. & Brimley, R. C.) 628

Zeaxanthin in berries of *Lonicera japonica* (Goodwin, T. W.) 458
Zein, rumen digestion of (McDonald, I. W.) 86
Zinc, complexes with amino-acids (Perkins, D. J.) 487
Zinc, distribution in mammalian eyes (Bowness, J. M., Morton, R. A., Shakir, M. H. & Stubbs, A. L.) 521
Zinc insulin, protamine, estimation of protamine and insulin in (Robinson, F. A. & Fehr, K. L. A.) 298
Zinc (^{65}Zn), incorporation into avian eggs (Tupper, R., Watts, R. W. E. & Wormall, A.) ix
Zinc, micro-estimation of (Bowness, J. M., Morton, R. A., Shakir, M. H. & Stubbs, A. L.) 521
Zinc, occurrence in melanin fractions from eye tissues Bowness, J. M. & Morton, R. A.) 530
